excerpt from what is eternal life and this is life eternal that they might know thee the only true god and jesus christ whom thou hast sent john 17 3 after all words are not very adequate vehicles for the expression of thought this phrase life eternal for instance doubtless brings up in your mind and in mine varying ideas as to what is included therein and yet if you and i do not get from this phrase the meaning which christ the speaker intended it should bear we must necessarily have a false idea or an entirely inadequate one of what it really means it is quite a usual custom for people to import into written words their own conceptions instead of taking from a verse of the bible that meaning which christ put into it they put into the verse their own conceptions and imagine that they are getting christ s meaning when this is not the case at all about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

the newtonian concept of time has been changed by einsteinian insight yet the einsteinian world view might make it difficult to appreciate traditional concepts of eschatology like heaven and hell death and immortality life after death and resurrection last day and final judgments because these expressions presuppose a pre einsteinian view of the universe since theology cannot remain unaffected by the new research in concepts of time eternity and eternal life tries to express the eschatological faith of the church by using the time language of our age to achieve this it provides an overview on the research in the nature of time done in geology cosmology physics biology psychology sociology history and philosophy and proposes a notion of time for timely christology and for timely eschatology by using the singularity event as literary form horvath scrutinizes how christ s time can lead to the times of all existing realities through death to eternity this is a pioneering work one that needs to be tested in the community of interested readers it is a communal search for an understanding of life death and eternal life not only in the light of abstract ideas and cultural linguistic doctrines in the world of religions but also in the light of science and especially of a person as the horizon of understanding for both time and eternity christ as the eschatological union of time and eternity becomes the work s unifying focus and its paradigm which solves recognized problems and opens our minds to new ones
