How to Save Money for Investment 1912 some people say i just can t save money while others have saving accounts full to the brim what is the mindset that makes some people save and while others just can t do it how to convert from a person who can t save to have a saving account you can boast off saving money is just as much part of your personality as anything else you are either a personality type that can save money or you can t the good news is that this part of your personality can be retrained and you can slowly but surely make saving money a part of your daily routine the brain is like any other body part and has to be trained to become good at anything for example you do not lose weight the day you start dieting or you do not learn to drive a car in the first lesson the key to getting started is small and altering a very important mindset it is not about making huge savings all the time but simply adopting a small principle that every little adds up this one principle is the most important aspect of getting into a habit of saving money looking for that 100 to put in you saving account will not do the trick especially if you are not a money saver making a habit of small 1 savings or any amount for that matter will help you slowly build a habit which would transform into a bigger lump sum over a period you have to train your brain hence altering your personality to make saving a habit and like anything else in life you have to start small learn from your mistakes and persevere to make saving a habit and part of your personality leading to fruitful results
