an increasing number of novel psychoactive drugs are currently available and sold as legal highs or research chemicals these new psychoactive substances nps constitute a broad range of hundreds of natural and synthetic drugs including synthetic cannabinoids synthetic cathinones synthetic opioids and other classes which use has resulted in a significantly growing number of intoxication and mortality as reported by emergency and poison centres from all over the world definition of nps includes any substance that has recently become available and has been designed purposely to replace illegal drugs although not necessarily of new synthesis use of nps is dramatically increased in the last decade and represents a serious risk for the public health their ever evolving chemical structure the possibility to distribute in real time through the internet and social networks information about their use and effects have dramatically challenged public health and drug policies internationally nps recently attracted great attention but most are still unregulated and proposed online as legal alternatives to traditional illicit drugs unfortunately this area is still poorly investigated and very limited information are available so far on their nature and potential risks the phenomenon of nps requires multi national and multi disciplinary collaborations to improve our knowledge on this changing drug market to share information and define good practices at a global level political and educational efforts are indispensable to regulate this mutable scenario and to inform the public about health consequences of nps use clinicians and emergency staff should be aware that nps may cause severe health consequences and unexpected adverse effects and be informed on how to recognize and treat specific intoxication cases considering the widespread use of nps and paucity of information about their toxicology and pharmacology this research topic will be useful to understand the new trends in the scenario of drug use abuse and addiction to inform professionals and general public about the health problems caused by nps and to help drug control policies to adopt suitable control measures

OECD Development Pathways Multi-dimensional Review of Kazakhstan Volume 2. In-depth Analysis and Recommendations

2017-06-15

sea otters and polar bears are carnivorous marine mammals that still resemble their terrestrial ancestors compared with cetacea whales and dolphins sirenia dugongs and manatees and pinnipedia seals sea lions and walrus they are less adapted for an aquatic life and the most recently evolved among marine mammals sea otters are amphibious but seldom come ashore and polar bears primarily occur on sea ice or along the shore when at sea both species spend most of their time swimming at the surface or making short shallow dives when foraging or pursuing prey indeed polar bears rarely pursue seals in water nevertheless polar bears are powerful swimmers and will stalk seals from the water as with many other large carnivores they are solitary hunters although sea otters are gregarious and

form aggregations at sea called rafts they are primarily asocial except during mating the principal interaction among sea otters occurs between a female and offspring during the six month dependency period in large carnivores e g wolves and lions that feed on ungulates sociality and cooperation are favored because of the need to capture large prey and defend carcasses polar bears which are the largest terrestrial carnivore are solitary hunters of seals and are neither gregarious nor social males and females briefly associate during courtship and mating during this time males aggressively compete for females at other times males generally avoid each other except for aggregations of males that form while summering on land and females with cubs avoid males which are known for infanticide as with sea otters the interaction of polar bears outside of mating occurs between a female and her offspring during the 2 3 year dependency period this interaction is critically important when altricial cubs are born in the winter den this book provides new insight into the ethology and behavioral ecology of sea otters and polar bears each chapter reviews the discoveries of previous studies and integrates recent research using new techniques and technology the authors also address historic and current anthropogenic challenges for their survival as climate change alters entire marine ecosystems

Novel Psychoactive Drugs

2019-06-05

a leading text for courses that go beyond the basics of family systems theory intervention techniques and diversity this influential work has now been significantly revised with 65 new material the volume explores how family relationships and therapy itself are profoundly shaped by race social class gender religion sexual orientation and other intersecting dimensions of marginalization and privilege chapters from leading experts guide the practitioner to challenge assumptions about family health and pathology understand the psychosocial impact of oppression and tap into clients cultural resources for healing practical clinical strategies are interwoven with theoretical insights case examples training ideas and therapists reflections on their own cultural and family legacies new to this edition existing chapters have been thoroughly updated and 21 chapters added expanding the perspectives in the book reflects over a decade of theoretical and clinical advances and the growing diversity of the united states new sections on re visioning clinical research trauma and psychological homelessness and larger systems

Ethology and Behavioral Ecology of Sea Otters and Polar Bears

2021-07-03

summarizing the current state of knowledge on the links between business and climate change this timely handbook analyzes how businesses contribute to and are affected by climate change looking closely at their centrality in developing and deploying solutions to address this problem contributions from a global collection of scholars and practitioners explore a broad range of key industries impacts and responses to climate change examining corporate strategy and leadership in the climate economy functional perspectives and corporate practice and climate finance

Re-Visioning Family Therapy

2019-05-14

characterization of nanoparticles measurement processes for nanoparticles surveys this fast growing field including established methods for the physical and chemical characterization of nanoparticles the book focuses on sample preparation issues including potential pitfalls with measurement procedures described in detail in addition the book explores data reduction including the quantitative evaluation of the final result and its uncertainty of measurement the results of published inter laboratory comparisons are referred to along with the availability of reference materials necessary for instrument calibration and method validation the application of these methods are illustrated with practical examples on what is routine and what remains a challenge in addition this book summarizes promising methods still under development and analyzes the need for complementary methods to enhance the quality of nanoparticle characterization with solutions already in operation helps readers decide which nanocharacterization method is best for each measurement problem including limitations advantages and disadvantages shows which nanocharacterization methods are best for different classes of nanomaterial demonstrates the practical use of a method based on selected case studies

Handbook of Business and Climate Change

2023-01-17

a gripping in depth account of the 2016 presidential election that explains donald trump s historic victory donald trump s election victory stunned the world how did he pull it off was it his appeal to alienated voters in the battleground states was it hillary clinton and the scandals associated with her long career in politics were key factors already in place before the nominees were even chosen identity crisis provides a gripping account of the campaign that appeared to break all the political rules but in fact didn t identity crisis takes readers from the bruising primaries to an election night whose outcome defied the predictions of the pollsters and pundits the book shows how fundamental characteristics of the nation and its politics the state of the economy the obama presidency and the demographics of the political parties combined with the candidates personalities and rhetoric to produce one of the most unexpected presidencies in history early on the fundamental characteristics predicted an extremely close election and even though trump s many controversies helped clinton maintain a comfortable lead for most of the campaign the prediction of a close election became reality when americans cast their votes identity crisis reveals how trump s victory was foreshadowed by changes in the democratic and republican coalitions that were driven by people s racial and ethnic identities the campaign then reinforced and exacerbated those cleavages as it focused on issues related to race immigration and religion the result was an epic battle not just for the white house but about what america is and should be

Molecular Links Between Mitochondrial Damage and Parkinson's Disease and Related Disorders

2021-09-28

this pandemic does not only affect health aspects but also economic aspects the world today faces a recession resulting from the covid 19 pandemic indonesia s economy continues to lead to a recovery although not very significant the current government continues to make various recovery efforts one of the flagship programs includes encouraging and strengthening support for social protection and increasing the purchasing power of households as well as various business sectors including small and medium sized micro enterprises msme s this condition urges the world to create new breakthroughs to rise from this adversity academicians and practitioners need to work together to find the necessary solutions and developments surely it will contribute to solve the problems in society by interdisciplinary cooperation this collaboration will create innovations in science and technology especially business and economic field this book includes in depth discussions between academicians and practitioners especially on how to strengthen the regional sectors to be the strong pillars of the country s economy interestingly various methods are used to observe the problems to explore the solutions and to develop the innovation this book will be of interest to students scholars and practitioners of social empowerment governance and other related stakeholders the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license funded by state university of malang

Plant Glycobiology - A Sweet World of Glycans, Glycoproteins, Glycolipids, and Carbohydrate-Binding Proteins

Archaeologies of Hitler's Arctic War

2020-10-29

assessing migration in the context of climate change nash draws on empirical research to offer a unique analysis of policymaking in the field this detailed account is a vital step in understanding the links between global discourses on human mobilities climate change and specific policy responses an important contribution to several ongoing debates in academia and beyond

Security and Privacy in Smart Sensor Networks

2018-05-09

this book focuses on how businesses manage organizational innovation processes it explores the innovative policies and practices that organizations need to develop to allow them to be successful in this digital age these policies will be based on key resources such as research and development and human resources and need to enable companies to respond to challenges they may face due to the digital economy it explains how organizational innovation can be used to improve business s development performance conduct and outcomes contributing to stimulate the growth and development of each individual in a dynamic competitive and global economy the present book can be used by a diverse range of readers including academics researchers managers and engineers interested in matters related with organizational innovation in the digital age

The Pollution of Rivers, and Its Effects Upon the Fisheries, and Supply of Water to Towns and Villages. An Address Delivered at the Royal Institution, London, Before the Sanitary Institute of Great Britain, 3rd July, 1878

1878

this book illustrates how to use description logic based formalisms to their full potential in the creation indexing and reuse of multimedia semantics to do so it introduces researchers to multimedia semantics by providing an in depth review of state of the art standards technologies ontologies and software tools it draws attention to the importance of formal grounding in the knowledge representation of multimedia objects the potential of multimedia reasoning in intelligent multimedia applications and presents both theoretical discussions and best practices in multimedia ontology engineering readers already familiar with mathematical logic internet and multimedia fundamentals will learn to develop formally grounded multimedia ontologies and map concept definitions to high level descriptors the core reasoning tasks reasoning algorithms and industry leading reasoners are presented while scene interpretation via reasoning is also demonstrated overall this book offers readers an essential introduction to the formal grounding of web ontologies as well as a comprehensive collection and review of description logics dls from the perspectives of expressivity and reasoning complexity it covers best practices for developing multimedia ontologies with formal grounding to guarantee decidability and obtain the desired level of expressivity while maximizing the reasoning potential the capabilities of such multimedia ontologies are demonstrated by dl implementations with an emphasis on multimedia reasoning applications

Genome Editing and Engineering

2018-08-23

spanning the full research process from philosophy and ethics to design and methods and through data collection management analysis and dissemination this handbook focuses specifically on the practicalities needed to conduct effective and culturally responsive research in the asian context

Fluvial Meanders and Their Sedimentary Products in the Rock Record (IAS SP 48)

2018-11-14

this book intends to decipher the knowledge in the advancement of understanding detecting predicting and monitoring landslides the number of massive landslides and the damages they cause has increased across the globe in recent times it is one of the most devastating natural hazards that cause widespread damage to habitat on a local regional and global scale international experts provide their experience in landslide research and practice to help stakeholders mitigate and predict potential landslides the book comprises chapters on dynamics mechanisms and processes of landslides geological geotechnical hydrological and geophysical modelling for landslides mapping and assessment of hazard vulnerability and risk associated with landslides monitoring and early warning of landslides application of remote sensing and gis techniques in monitoring and assessment of landslides the book will be of interest to researchers practitioners and decision makers in adapting suitable modern techniques for landslide study

Chinese Research Perspectives on Society, Volume 6

2019-11-11

this volume provides a contemporary glance at the drastically expanding field of delivering large scale education to unprecedented numbers of learners it compiles papers presented at the celda cognition and exploratory learning in the digital age conference which has a goal of continuing to address these challenges and promote the effective use of new tools and technologies to support teaching learning and assessment given the emerging global trend to exploit the potential of existing digital technologies to improve the teaching learning and assessment experiences for all learners in real life contexts this topic is a unifying theme for this volume the book showcases how emerging educational technologies and innovative practices have been used to address core global educational challenges it provides state of the art insights and case studies of exploiting innovative learning technologies including massive open online courses and educational data analytics to address key global challenges spanning from online teacher education to large scale coding competence development this volume will be of interest to academics and professional practitioners working in the area of digital technology integration in teaching learning and assessment as well as those interested in specific conference themes e g designing and assessing learning in online environments assessing learning in complex domains and presenters invited speakers and participants of the celda conference

Negotiating Migration in the Context of Climate Change

2019-09-30

the book focuses on smart computing for crowdfunding usage looking at the crowdfunding landscape e g reward donation equity p2p based and the crowdfunding ecosystem e g regulator asker backer investor and operator the increased complexity of fund raising scenario driven by the broad economic environment as well as the need for using alternative funding sources has sparked research in smart computing techniques covering a wide range of detailed topics the authors of this book offer an outstanding overview of the current state of the art providing deep insights into smart computing methods tools and their applications in crowdfunding exploring the importance of smart analysis prediction and decision making within the fintech industry this book is intended to be an authoritative and valuable resource for professional practitioners and researchers alike as well as finance engineering and computer science students who are interested in crowdfunding and other emerging fintech topics

Organizational Innovation in the Digital Age

2022-04-18

inclusive education has been phased into south africa since 2001 but relies heavily upon adequate support services to support learners and teachers experiencing barriers to learning and development this book focuses on the different levels of support provided in south african education from school based support teams to district based support teams through to special and full service schools and how these could be reconceptualised to provide improved support to learners and teachers current research indicates that inclusive education is being implemented in varied and fragmented forms across the country and the point of departure of this work is that education support services need to be improved and reconceptualised to ensure better support for inclusive education

Description Logics in Multimedia Reasoning

2017-06-28

merging together the fields of urban ecology environmental justice and urban environmental education urban ecosystem justice promotes building fair accessible and mutually beneficial relationships between citizens and the soils water atmospheres and biodiversity in their cities this book provides a framework for re centering issues of justice and fairness in sustainability discourse while challenging the profound ecological alienation experienced by urban residents while the urban sustainability movement has had many successes in the past few decades there remain areas for it to grow for one the benefits of sustainability have disproportionately benefited wealthier city residents with concerns over equity justice and social sustainability frequently taking a back seat to economic and environmental considerations additionally many city dwellers remain estranged from and unfamiliar with ecological processes with urban environments often thought of as existing outside of nature or as hopelessly degraded through a citizen centered lens the book offers a guide to reconciling these issues by demonstrating how questions of equity access and justice apply to the biophysical dimensions of the urban ecosystem soil water air waste and biodiversity drawing heavily from the fields of urban ecology environmental justice and ecological design this book lays out a science of cities for people a pedagogical platform that can be used to promote ecological literacy in underrepresented urban communities through affordable and decentralized means this book provides both a theoretical and practical field guide to students and researchers of urban sustainability city planners architects policymakers and activists wishing to develop reciprocal relationships with urban ecologies

The SAGE Handbook of Qualitative Research in the Asian Context

due to the mortgage crisis of 2008 laws aimed at achieving budgetary and financial stability were enacted the concept of nancial sustainability has been linked to the need of rendering public services without compromising the ability to do so in the future financial sustainability and intergenerational equity in local governments is a critical scholarly resource that analyzes the financial sustainability of

local governments with the aim of ensuring equality and intergenerational equity featuring coverage on a broad range of topics such as intergenerational equity public policies and sustainability management this book is geared towards government officials managers academicians practitioners students and researchers seeking current research on identifying public policies to ensure financial balance

Smart Computing Applications in Crowdfunding

2018-12-07

through interdisciplinary and multidisciplinary perspectives and with an emphasis on exploring patterns as well as distinct and unique conditions across the globe this collection examines advanced and cutting edge theoretical and methodological approaches to the study of the health of urban populations despite the growing interest in global urban health there are limited resources available that provide an extensive and advanced exploration into the health of urban populations in a transnational context this volume offers a high quality and comprehensive examination of global urban health issues by leading urban health scholars from around the world the book brings together a multi disciplinary perspective on urban health with chapter contributions emphasizing disciplines in the social sciences construction sciences and medical sciences the co editors of the collection come from a number of different disciplinary backgrounds that have been at the forefront of urban health research including public health epidemiology geography city planning and urban design the book is intended to be a reference in global urban health for research libraries and faculty collections it will also be appropriate as a text for university class adoption in upper division undergraduate courses and above the proposed volume is extensive and offers enough breadth and depth to enable it to be used for courses emphasizing a u s or wider western perspective as well as courses on urban health emphasizing a global context

Reconceptualising education support services in South Africa

2022-02-10

foreword ten years is a long time in 2009 a bunch of friends gathered in portugal for a conference that was to precede take in 2011 we repeated then after a strange sequence of events we finally organized take for the first time in 2015 in aveiro followed by zagreb poznan and now vienna florian kragulj was in the first take in aveiro and from the start showed the highest level of enthusiasm and professionalism in the event these characteristics were kept alive during all the 15 or so months during which we organized take 2019 that this edition of take involves several entities linked with academia i e wu vienna university of economics and business the austrian economic chamber and the institute for applied research on skilled crafts and trades iagf this in itself a big success and a sign of the conference improvement also we may see by analysing the papers and in particular the streams that take has been following the economic times and this year we have several papers on the gig economy only good conferences adjust the others get stuck in time and success in conferences is about teams and in take that team is indeed a very large group of people including the co chairs the local organizing team the material organizers book of abstracts and proceedings the stream leaders and the paper reviewers without all these persons nothing could have been done and finally we had to depend on the authors and their willingness to work with us without the work of these large dozens of devoted and skilled people take 2019 would not have existed may i also mention that this time and with florian s impulse and skill the organization of take was improved in technological terms in short we became techno we used a website to deliver the mail list a website to receive the scientific material and another website to receive the fees all these were investments that eventually paid of and that will guarantee a more stable organization for take in the future and we owe it to florian however as the human resource development part of take and more than anyone gary mc lean would remind us we are humans eduardo and technology helps but in the end is attention to detail capacity to deal with the bizarre and to accommodate the weirdness making sometimes the impossible possible that differentiates a good conference made doing things right from an excellent conference based in doing the right things and on this last matter believe me we in take are among the best in the world because apart from being outstanding scholars and good colleagues we are an amazing group of friends and friendship is the best way to turn good conferences into outstanding ones many thanks from the heart and enjoy the conference eduardo tomé conference chair universidade europeia lisbon july 2019 lisbon portugal
