Download free Notes of chapter vector for class xi (Read Only)

this textbook presented in a clear and friendly writing style provides students of class xi with a thorough introduction to the discipline of computer science it offers accurate and balanced coverage of all the computer science topics as prescribed in the cbse syllabus code 083 assuming no previous knowledge of computer science this book discusses key computing concepts to provide invaluable insight into how computers work it prepares students for the world of computing by giving them a solid foundation in programming concepts operating systems problem solving methodology c programming language data representation and computer hardware key features explains theory in user friendly and easy to approach style teaches c from scratch knowledge of c is not needed provides programming examples gives practical exercise provides answers to short questions gives practice questions at the end of each chapter suitable for self study psa for class xi is a well planned resource for students and is prepared strictly according to the latest guidelines given by the cbse central board of secondary education the book comprises five major parts qualitative analysis quantitative analysis english comprehensions data interpretation and passages and assessment zone it contains examples and exercises with answers and explanations based on the examination pattern the text also includes sections on let s try in each chapter to help students develop creative thinking and is a must buy resource for students appearing for the psa examination key features step by step solutions to build an understanding of concepts and theory designed in the format provided by the cbse all possible types of questions framed according to the examination includes solved previous years question papers along with two model test papers commerce well labelled illustrations diagrams tables figures and experiments have been given to support the text wherever necessary i s chand s isc mathematics for class xi a textbook of tourism subject code 806 for class 11 is designed to facilitate the job role of travel blogger airline staff hotelier tourism manager travel consultant front offi ce executive travel executive tourist guide transport agent and tour operator this book has been developed as per the latest syllabus and examination pattern prescnl ed by the cbse the language in the book is deliberately kept reader friendly allowing easy accessibility and grasp of knowledge this book on tourism provides detailed information on tourism concepts it also emphasises the connections between tourism and india s and the world s history and geography the book also highlights the role of hospitality accommodations tourism activities and ancillary services in tourism a discussion on different types of tourism organisations in the world has also been presented emphasising their roles in promoting and developing the travel and tourism industry nowadays the hospitality and tourism industries are among the world s largest it began with travel during human civilisations when humans began to live in an mganised society in modem and post modem times tourism has evolved manifolds and its demand has also increased travel and tourism promote happiness for various reasons from leisure and pleasure to psychological and physical well being and benefits considering the growth and development of travel and tourism the need for professionals to cater to the needs of this dynamic industry was felt tourism professionals require an in depth knowledge gained through multi disciplinary approaches such as history geography culture anthropology psychology and tourism business and thus the need for competency based vocational education was realised in this regard cbse introduced travel and

tourism courses as part of the tourism and hospitality stream each chapter has been divided into the following parts a introduction it introduces you to the chapter s topic and learning objectives b relevant knowledge this part of the unit provides you with relevant information on the topics covered the knowledge developed through this part will enable the students to perform certain activities listed at the end of each topic c assignment the various questions included in this part of the chapter will help the students to check their understanding of the topics learnt sincere attempts have been made to keep the language of the book simple the concepts have also been explained through pictorial illustrations wherever necessary this will allow the students to have a swift reading of the book making the content of the book easy to understand we also hope that this book will boost the studentst morale and enormously benefit the teachers constructive suggestions for the improvement of the book are most welcome the authors would be glad to read the feedback and implement it in upcoming books authors strictly as per the new cbse course structure and ncert guidelines this thoroughly revised and updated textbook is designed for class xi of senior secondary schools under the 10 2 pattern of education the text is presented in a logical manner it identifies your problem areas and helps you to solve them every effort has been made to make the contents as simple as possible so that the beginners will grasp the fundamental concepts easily key features large number of solved examples to understand the subject categorization of problems under level of difficulty a cover the needs of the students preparing for cbse exams level of difficulty b guide the students for engineering entrance examinations learning objectives at the beginning of each chapter to enable the students to focus their study problem solving trick s to enhance the problem solving skills besides this each chapter is followed by a chapter test to test problem solving skills working hints to a large number of problems are given at the end of each and every exercise in a nut shell this book will help the students score high marks in cbse and at the same time build a strong foundation for success in any competitive examination contents contents preface syllabus chapter 1 sets chapter 2 relations and functions chapter 3 trigonometric functions chapter 4 principle of mathematical induction chapter 5 complex numbers and quadratic equations chapter 6 linear inequations chapter 7 permutations and combinations chapter 8 binomial theorem chapter 9 sequences and series chapter 10 straight line chapter 11 conic sections chapter 12 introduction to three dimensional geometry chapter 13 limits and derivatives chapter 14 mathematical reasoning chapter 15 statistics measures of dispersion chapter 16 probability a book on conceptual chemistry ncert textbooks play the most vital role in developing student s understanding and knowledge about a subject and the concepts or topics covered under a particular subject keeping in mind this immense importance and significance of the ncert textbooks in mind arihant has come up with a unique book containing questions answers of ncert textbook based questions this book containing solutions to ncert textbook questions has been designed for the students studying in class xii following the ncert textbook for english core the present book has been divided into three parts covering the syllabi of english core for class xi prose covers the portrait of a lady the browning version the adventure silk road etc whereas poetry section covers a photograph the voice of the rain childhood father to son etc and the supplementary reader section covers the address ranga s marriage mother s day birth the tale of melon city etc this book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the textbook based questions the book covers selected ncert exemplar problems which will help the students understand the type of questions and answers to be expected in the class xii english core examination also each chapter in the

book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is long answer type or short answer type question the book has been designed systematically in the simplest manner for easy comprehension of the chapters and their themes for the overall benefit of students the book has been designed in such a way that it not only gives solutions to all the exercises but also gives detailed explanations which will help the students in learning the concepts and will enhance their thinking and learning abilities as the book has been designed strictly according to the ncert textbook of english core for class xi and contains simplified text material in the form of class room notes and answers to all the questions in lucid language it for sure will help the class xi students in an effective way for english core conceptual chemistry volume i for class xi this book applications for class xi 803 aims at providing an in depth understanding of the cbse curriculum it strictly adheres to the latest syllabus and guidelines laid down by the board this book focuses on teaching application to young learners it helps students to learn concepts of html javascript and css for inculcating web development and problem solving skills based on the cbse curriculum this book has been divided into four units basics of networking and architecture website development using html and css multimedia design gimp and introduction to dynamic websites using javascript this book contains ample number of practical programs with easy to understand examples each chapter contains the following a learning objectives it describes the goals to be achieved at the end of the chapter b chapter contents concepts are explained to strengthen the knowledge base of young learners c did you know it gives some extra and useful information on the topic being covered d activity time it encourages the students to explore some practical knowledge of the topic being covered e check your knowledge at the end of some topics this section is given to evaluate the knowledge of the learners it comprises multiple choice questions answer the following questions and practical work f test yourself it includes questions with variety of headings as multiple choice questions short answer type questions l 11 long answer questions activity zone and group discussion we are sure that this book will be of immense help to students and teachers alike constructive feedback for the improvement of this book will be highly appreciated and gratefully acknowledged authors s chand s mathematics books for classes ix and x are completely based on cce pattern of cbse the book for term i covers the syllabus from april to september and the book for term ii covers the syllabus from october to march this essential core textbook has been written for the intermediate first year physics course the book aims to help students and understand that equations in physics express concepts and encourages them to reason out ideas and improve their problem solving skills the need to understand logic basic concepts and principles of physics has been stressed throughout the text numerous examples are given within the text to help students understand the principles and concepts being discussed and at the end of each chapter qualitative questions are given for students to solve simple mathematics has been used throughout and the book is well illustrated a book on conceptual chemistry s chand s isc mathematics is structured according to the latest syllabus as per the new cisce council for the indian school certificate examinations new delhi for isc students taking classes xi xii examinations ncert textbooks play the most vital role in developing student s understanding and knowledge about a subject and the concepts or topics covered under a particular subject keeping in mind this immense importance and significance of the ncert textbooks in mind arihant has come up with a unique book containing questions answers of ncert textbook based questions this book containing solutions to ncert textbook questions has been

designed for the students studying in class xi following the ncert textbook for economics the present book has been divided into two parts containing 18 chapters covering the syllabi of economics for class xi part a covers poverty rural development infrastructure human capital formation in india indian economy 1950 1990 environment sustainable development etc whereas part b covers collection of data organisation of data presentation of data correlation index numbers measures of dispersion etc this book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the textbook based questions the book covers selected ncert exemplar problems which will help the students understand the type of questions and answers to be expected in the class xi economics examination also each chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is long answer type or short answer type question the book has been designed systematically in the simplest manner for easy comprehension of the chapters and their themes for the overall benefit of students the book has been designed in such a way that it not only gives solutions to all the exercises but also gives detailed explanations which will help the students in learning the concepts and will enhance their thinking and learning abilities as the book has been designed strictly according to the ncert textbook of economics for class xi and contains simplified text material in the form of class room notes and answers to all the questions in lucid language it for sure will help the class xi students in an effective way for economics goyal brothers prakashan the king s literature series has been annotated by sanjay kumar sinha who is a guinness world record holder for the longest teaching for 73 hours and 37 minutes he also holds the world record of the fastest teaching in the world this series has been framed in order to enhance the clear concept of literature to the students colour therapy has been used to find the meanings so that the students can find the meaning very easily mathematic concise and accurate treatment of the subject matter comparative tables to highlight the differences between important terms profusely illustrated with examples and well labelled diagrams all the chapters contain new material as per the latest syllabus ncert textbooks play the most vital role in developing student s understanding and knowledge about a subject and the concepts or topics covered under a particular subject keeping in mind this immense importance and significance of the ncert textbooks in mind arihant has come up with a unique book containing questions answers of ncert textbook based questions this book containing solutions to ncert textbook questions has been designed for the students studying in class xi following the ncert textbook for business studies the present book has been divided into two parts containing 12 chapters covering the syllabi of business studies for class xi part a covers nature purpose of business forms of business organisation private public global enterprises business services emerging modes of business and social responsibilities of business business ethics whereas part b covers formation of a company sources of business finance small business internal trade international business i and international business ii this book has been worked out with an aim of overall development of the students in such a way that it will help students define the way how to write the answers of the textbook based questions the book covers selected ncert exemplar problems which will help the students understand the type of questions and answers to be expected in the class xi business studies examination also each chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter

whether it is long answer type or short answer type question the book has been designed systematically in the simplest manner for easy comprehension of the chapters and their themes for the overall benefit of students the book has been designed in such a way that it not only gives solutions to all the exercises but also gives detailed explanations which will help the students in learning the concepts and will enhance their thinking and learning abilities as the book has been designed strictly according to the ncert textbook of business studies for class xi and contains simplified text material in the form of class room notes and answers to all the questions in lucid language it for sure will help the class xi students in an effective way for business studies an excellent book in accordance with the latest syllabus for class 11 prescribed by cbse ncert and adopted by various state education boards introduction 1 necessary equipments chemicals and other things for practical work 2 general instructions for practical work 3 special instructions for practical note book drawing and recording 4 special instructions for spotting experiments 1 to study and describe the flowering plant belonging to family one from each of the families a solanaceae b fabaceae c liliaceae 2 to prepare temporary slide of transverse section of dicot monocot stem dicot monocot root 3 to study osmosis by potato osmometer 4 to study of plasmolysis in epidermal peel of tradescantial or rhoeo leaf 5 to study the distribution of stomata on the upper and lower surface of a leaf 6 to compare the rate of transpiration in upper and lower surface of the leaf 7 to test the presence of sugars glucose sucrose and starch proteins and fats and to detect their presence in suitable plant and animal materials 8 to study the separation of plant pigments by paper chromatography 9 to study the rate of respiration in flower buds leaf tissue and germinating seeds 10a to test presence of urea in urine 10b to test presence of sugar in urine 10c to detect presence of albumin in urine 10d to test urine for presence of bile salt spotting 1 study of compound microscope 2 to study the plant specimen and identification with reasons bacteria oscillatoria spirogyra rhizopus mushroom yeast liverwort moss fern pine one monocotyledonous plant one dicotyledonous plant and one lichen 3 study of animal specimens 1 amoeba 2 hydra 3 fasciola hepatica liver fluke 4 ascaris lumbricoides 5 hirudinaria granulosa 6 pheretima posthuma 7 palaemon 8 bombyx mori 9 apis indica honeybee 10 pila globasa snail 11 asterias starfish 12 scoliodon dogfish shark 13 labeo rohita rohu 14 rana tigrina frog 15 hemidactylus lizard 16 columba livia pigeon 17 orytolagus cuniculus rabbit 4a to study the plant tissues palisade cells guard cells parenchyma collenchyma sclerenchyma xylem and phloem through prepared slide 4b to study the animal tissue squamous epithelium muscles fibres through prepared slide 4c to study mammalian blood smear by temporary permanent slide 5 study of mitosis in root tip of onion 6 study of different modification in root stem and leaves 7 to study and identify different types of inflorescence racemose and cymose 8 to study imbition in seed raisins 9 to demonstrate that anaerobic respiration take place in the absence of air 10 to study human skeleton and joints 11 to study the external features of cockroach with help of model or chart goyal brothers prakashan unit i sets and functions 1 sets 2 relations and functions 3 trigonometric functions unit ii algebra 4 principle of mathematical induction 5 complex numbers and quadratic equations 6 linear inequalities 7 permutations and combinations 8 binomial theorem 9 sequences and series unit iii co ordinate geometry 10 straight lines 11 conic sections 12 introduction to three dimensional geometry unit iv calculus 13 limits and derivatives unit v mathematical reasoning 14 mathematical reasoning unit vi statistics probability 15 statistics 16 probability value based questions vbq board examination papers the council for the indian school certificate examination new delhi has thoroughly revised the syllabus of business studies for isc class xi the new syllabus is in line with the changing business environment in india

characterised by start up entrepreneurship digitalisation cashless payment mechanism online business etc both the students and the teachers feel an acute need for a high quality textbook as per the new syllabus this book is designed and written to meet this need according to the council for the indian school certificate examinations the aims of teaching business studies at the xi standard are as follows 1 to enable candidates to understand the modern business environment and to create awareness about various entrepreneurial opportunities 2 to awaken a spirit of enterprise amongst candidates 3 to provide an insight into the recent trends in business 4 to acquaint candidates with the various aspects of human resource management 5 to provide knowledge and understanding of communication in modern business 6 to identify the various sources of business finance and the role of regulators and intermediaries i am sure the book would fulfill all these aims the book fully meets the requirements of the new syllabus some of the unique features of the book are given below simple and easy to understand language chapter outline to give a bird s eye view of the topics described in every chapter liberal use of diagrams and tables to illustrate the text examples from indian companies summary at the end of each chapter for quick revision before the date of examination short answer type and long answer type questions question bank at the end of each chapter sample papers for self test goyal brothers prakashan multiple choice questions with their answers are also incorporated to help students preparing for competitive examinations an excellent book in accordance with the latest syllabus for class 11 prescribed by cbse ncert and adopted by various state education boards a basic laboratory techniques 1 to cut a glass tube or glass rod 2 to bend the glass rod at an angle 3 to draw a glass jet from a glass tube 4 to bore a cork and fit a glass tube into it b characterisation and purification of chemical substances 1 to determine the melting point of the given unknown organic compound and its identification simple laboratory technique 2 to determine the boiling point of a given liquid when available in small quantity simple laboratory method 3 to prepare crystals of pure potash alum k2so4 al2 so4 3 24h2o from the given impure sample 4 to prepare the pure crystals of copper sulphate from the given crude sample 5 to prepare pure crystals of benzoic acid from a given impure sample c measurement of ph values 1 to determine the ph value of vegetable juices fruit juices tap water and washing soda by using universal ph paper 2 to determine and compare the ph values of solutions of strong acid hci and weak acid ch3cooh of same concentration 3 to study the ph change in the titration of strong base vs strong acid by using universal indicator paper 4 to study the ph change by common ion ch3coo ion in case of weak acid ch3cooh 5 to determine the change in ph value of weak base nh4oh in presence of a common ion nh4 d chemical equilibrium 1 to study the shift in equilibrium between ferric ions and thiocyanate ions by changing the concentrations of either of the ions 2 to study the shift in equilibrium between co h2o 6 2 and cl ions by changing the concentrations of either of the ions e quantitative analysis 1 to prepare m 10 oxalic acid solution by direct weighing method 2 to prepare m 10 solution of sodium carbonate by direct weighing method 3 to determine the strength of given solution of sodium hydroxide by titrating it against n 10 or m 20 solution of oxalic acid 4 to determine the strength of a given solution of hydrochloric acid by titrating it against a standard n 10 or m 20 sodium carbonate solution f qualitative analysis 1 analysis of anions 2 analysis of cations g detection of elements in organic compounds 1 to detect the presence of nitrogen sulphur and halogens in a given organic compound by lassaigne s test 2 to detect the presence of nitrogen sulphur and halogens in the given organic compound sample number by lassaigne s test investigatory projects a checking of bacterial contamination in water 1 to check the bacterial contamination in drinking water

by testing sulphide ions b methods of water purification 1 to purify water from suspended impurities by using sedimentation 2 to purify water by boiling 3 to purify water by distillation method 4 to purify water by reverse osmosis technique 5 to purify water by gac method 6 to purify water by bleach treatment 7 to purify water by oxidising agent 8 to purify water by ozone treatment method c water analysis 1 to test the hardness of different water samples d foaming capacity of various soaps 1 to compare the foaming capacity of different washing soaps 2 to study the effect of addition of sodium carbonate on foaming capacity of washing soap e tea analysis 1 to study the acidity of different samples of tea leaves tea by using ph paper f analysis of fruits and vegetable juices 1 to analyse the fruit and vegetable juices for the constituent present in them g rate of evaporation 1 to study the rate of evaporation of different liquids h effect of acids and bases on tensile strength of fibres 1 to compare the tensile strength of natural fibres and synthetic fibres 2 to study the effect of acids and bases on tensile strength of different fibres log antilog table through a focus on a number of historical themes debates and different sources the history curriculum introduces the students to a number of significant historical events and processes students may learn about the events and procedures through a discussion of these topics but they could also experience the thrill of reading historical accounts however a useful method of determining whether the lessons learned the process of having specified outcomes can guarantee whether or not objectives have been realized these results have been listed in order for the concerned teachers and their pupils to use various constructive tactics against the learning objectives and competency based evaluation methods students would also be able to record relate and compare developments in various contexts analyze linkages between similar processes occurring in various historical eras and learn how various historical inquiry methodologies relate to one another through the course material a complete course in isc english for classes xi xii is covering the syllabus prescribed by the council for the indian school certificate examinations new delhi for the isc examinations in and after 2013 isc chemistry book 1

TEXTBOOK OF COMPUTER SCIENCE FOR CLASS XI

2008-08-19

this textbook presented in a clear and friendly writing style provides students of class xi with a thorough introduction to the discipline of computer science it offers accurate and balanced coverage of all the computer science topics as prescribed in the cbse syllabus code 083 assuming no previous knowledge of computer science this book discusses key computing concepts to provide invaluable insight into how computers work it prepares students for the world of computing by giving them a solid foundation in programming concepts operating systems problem solving methodology c programming language data representation and computer hardware key features explains theory in user friendly and easy to approach style teaches c from scratch knowledge of c is not needed provides programming examples gives practical exercise provides answers to short questions gives practice questions at the end of each chapter suitable for self study

PSA for Class XI

2022-09-15

psa for class xi is a well planned resource for students and is prepared strictly according to the latest guidelines given by the cbse central board of secondary education the book comprises five major parts qualitative analysis quantitative analysis english comprehensions data interpretation and passages and assessment zone it contains examples and exercises with answers and explanations based on the examination pattern the text also includes sections on let s try in each chapter to help students develop creative thinking and is a must buy resource for students appearing for the psa examination key features step by step solutions to build an understanding of concepts and theory designed in the format provided by the cbse all possible types of questions framed according to the examination includes solved previous years question papers along with two model test papers

NCERT Solutions – Business Studies for Class XI

multiple choice questions with their answers are also incorporated to help students preparing for competitive examinations

Practical/Laboratory Manual Biology Class XI based on NCERT guidelines by Dr. Sunita Bhagia & Megha Bansal

an excellent book in accordance with the latest syllabus for class 11 prescribed by cbse ncert and adopted by various state education boards a basic laboratory techniques 1 to cut a glass tube or glass rod 2 to bend the glass rod at an angle 3 to draw a glass jet from a glass tube 4 to bore a cork and fit a glass tube into it b characterisation and purification of chemical substances 1 to determine the melting point of the given unknown organic compound and its identification simple laboratory technique 2 to determine the boiling point of a given liquid when available in small quantity simple laboratory method 3 to prepare crystals of pure potash alum k2so4 al2 so4 3 24h2o from the given impure sample 4 to prepare the pure crystals of copper sulphate from the given crude sample 5 to prepare pure crystals of benzoic acid from a given impure sample c measurement of ph values 1 to determine the ph value of vegetable juices fruit juices tap water and washing soda by using universal ph paper 2 to determine and compare the ph values of solutions of strong acid hci and weak acid ch3cooh of same concentration 3 to study the ph change in the titration of strong base vs strong acid by using universal indicator paper 4 to study the ph change by common ion ch3coo ion in case of weak acid ch3cooh 5 to determine the change in ph value of weak base nh4oh in presence of a common ion nh4 d chemical equilibrium 1 to study the shift in equilibrium between ferric ions and thiocyanate ions by changing the concentrations of either of the ions 2 to study the shift in equilibrium between co h2o 6 2 and cl ions by changing the concentrations of either of the ions e quantitative analysis 1 to prepare m 10 oxalic acid solution by direct weighing method 2 to prepare m 10 solution of sodium carbonate by direct weighing method 3 to determine the strength of given solution of sodium hydroxide by titrating it against n 10 or m 20 solution of oxalic acid 4 to determine the strength of a given solution of hydrochloric acid by titrating it against a standard n 10 or m 20 sodium carbonate solution f qualitative analysis 1 analysis of anions 2 analysis of cations g detection of elements in organic compounds 1 to detect the presence of nitrogen sulphur and halogens in a given organic compound by lassaigne s test 2 to detect the presence of nitrogen sulphur and halogens in the given organic compound sample number by lassaigne s test investigatory projects a checking of bacterial contamination in water 1 to check the bacterial contamination in drinking water by testing sulphide ions b methods of water purification 1 to purify water from suspended impurities by using sedimentation 2 to purify water by boiling 3 to purify water by distillation method 4 to purify water by reverse osmosis technique 5 to purify water by gac method 6 to purify water by bleach treatment 7 to purify water by oxidising agent 8 to purify water by ozone treatment method c water analysis 1 to test the hardness of different water samples d foaming capacity of various soaps 1 to compare the foaming capacity of different washing soaps 2 to study the effect of addition of sodium carbonate on foaming capacity of washing soap e tea analysis 1 to study the acidity of different samples of tea leaves tea by using ph paper f analysis of fruits and vegetable juices 1 to

analyse the fruit and vegetable juices for the constituent present in them g rate of evaporation 1 to study the rate of evaporation of different liquids h effect of acids and bases on tensile strength of fibres 1 to compare the tensile strength of natural fibres and synthetic fibres 2 to study the effect of acids and bases on tensile strength of different fibres log antilog table

A Textbook of Applied Mathematics Class XI (Vol. 1)

through a focus on a number of historical themes debates and different sources the history curriculum introduces the students to a number of significant historical events and processes students may learn about the events and procedures through a discussion of these topics but they could also experience the thrill of reading historical accounts however a useful method of determining whether the lessons learned the process of having specified outcomes can guarantee whether or not objectives have been realized these results have been listed in order for the concerned teachers and their pupils to use various constructive tactics against the learning objectives and competency based evaluation methods students would also be able to record relate and compare developments in various contexts analyze linkages between similar processes occurring in various historical eras and learn how various historical inquiry methodologies relate to one another through the course material
