ted striphas tracks the methods through which the book industry has adapted or has failed to adapt to rapid changes in twentieth century print culture with examples from trade journals news media films advertisements and other commercial and scholarly materials striphas tells a story of modern publishing that proves even in a rapidly digitizing world books are anything but dead with wit and brilliant insight he isolates the invisible processes through which books have come to mediate our social interactions and influence our habits of consumption this edition features a new preface in which striphas considers the stakes of abandoning printed books in favor of digital readers consumer capitalism dominates our economy our politics and our culture yet there is a growing body of research from a range of disciplines that suggests that consumer capitalism may be past its sell by date beyond consumer capitalism begins by showing how for people in the developed world consumer capitalism has become economically and environmentally unsustainable and is no longer able to deliver its abiding promise of enhancing quality of life this cutting edge book then asks why we devote so little time and effort to imagining other forms of human progress the answer lewis suggests is that our cultural and information industries limit rather than stimulate critical thinking keeping us on the treadmill of consumption and narrowing our vision of what constitutes progress if we are to find a way out of this cul de sac lewis argues we must begin by analysing the role of media in consumer capitalism and changing the way we organize media and communications we need a cultural environment that encourages rather than stifles new ideas about what guides our economy and our society timely and compelling beyond consumer capitalism will have strong appeal to students and scholars of media studies cultural studies and consumer culture targeted as the grey consumer people retiring now participated in the creation of the post war consumer culture these consumers have grown older but have not stopped consuming based on extensive analysis over two years this unique book examines the engagement of older people with consumer society in britain since the 1960s it charts the changes in the experience of later life in the uk over the last 50 years the rise of the individualised consumer citizen and what this means for health and social policies the book will appeal to students lecturers researchers and policy analysts it will provide material for teaching on undergraduate courses and postgraduate courses in sociology social policy and social gerontology it will also have considerable appeal to private industry engaged with older consumers as well as to voluntary and non governmental organisations addressing ageing in britain globalisation and consumerism affect every area of our lives but it s not just about shopping these powerful forces shape our personal lives how we relate to one another how we view the world and they are having a seriously detrimental impact both on the lives of the global poor and on the health of the planet itself every christian in every generation down through the history of the church has had to work out what it means to be a follower of jesus in their particular culture for us in the twenty first century we must think about discipleship in a globalised consumerist context environmentalist and theologian ruth valerio examines these issues in a book that is intellectually rigorous yet practical and as inspiring as it is challenging the mass production and diversification of media have accelerated the development of popular culture this has started a new trend in consumerism of desiring new consumption objects and devaluing those consumption objects once acquired thus creating a constant demand for new items pop culture now canalizes consumerism both with advertising and the marketing of consumerist lifestyles which are disseminated in the mass media the handbook of research on consumption media and popular culture in the global age discusses interdisciplinary perspectives on media influence and consumer impacts in a globalizing world due to modern communication technology featuring research on topics such as consumer culture communication ethics and social media this book is ideally designed for managers marketers researchers academicians and students consumerism is not merely a way of life it is increasingly recognized as a framework through which people find their identity and sense of belonging in society christians are called to be salt and light in society if we are to take this command seriously and be zealous for the reputation of god s character in our day we must test the spirit of the age and analyze the forces and ideologies that shape our culture if we don t there is a danger that we will become so accustomed to our consumerist culture that it rather than the convictions at the heart of what god has called us to be will shape our lives issues regarding consumerism are considered from biblical ethical sociological and economic viewpoints and suggestions offered about how christians can positively respond to the prevailing ethic today collage culture develops a comprehensive theory of the origins and meanings of collage and readymades in modern and by a prominent medievalist focuses on the period of transition between 1250 and 1550 when the wealth and power of the great lords was threatened and weakened and when new social groups emerged and new methods of production were adopted professor dyer examines both the commercial growth of the thirteenth century and the restructuring of farming trade and industry in the fifteenth century the subjects investigated include the balance between individuals and the collective interests of families and villages the role of the aristocracy and in particular the gentry are scrutinized and emphasis placed on the initiatives taken by peasants traders and craftsmen the growth in consumption moved the economy in new directions after 1350 and this encouraged investment in productive enterprises a commercial mentality persisted and grew and producers such as farmers profited from the market many people lived on wages but not enough of them to justify describing the sixteenth century economy as capitalist the conclusions are supported by research in sources not much used before such as wills and non written evidence including buildings dyer argues for a reassessment of the whole period and shows that many features of the sixteenth seventeenth and eighteenth centuries can be found before 1500 \_\_\_\_\_\_ this volume of original chapters is designed to bring attention to a neglected area of feminist scholarship aging after several decades of feminist studies we are now well informed of the complex ways that gender shapes the lives of women and men similarly we know more about how gendered power relations interface with race and ethnicity class and sexual orientation serious theorizing of old age and age relations to gender represents the next frontier of feminist scholarship in this volume leading national and international feminist scholars of aging take first steps in this direction illuminating how age relations interact with other social inequalities particularly gender in doing so the authors challenge and transform feminist scholarship and many taken for granted concepts in gender studies \_\_\_\_\_ this book provides a concise and accessible history of the relationship between the individual and capitalism in the united states the text is devoted to tracking the historical development of important themes whilst addressing key episodes in the progress of american capitalism within these such as the great depression and new deal the book will introduce students to the key philosophical principles that have been the most influential in the history of free enterprise in the united states as well as exploring the ways in which these ideas have been popularly understood by americans from the late eighteenth century to the present liberalism and neoliberalism entrepreneurialism slavery and racial capitalism and business and gender are all assessed the material in this volume is complimented by a set of primary source documents that bring the subject to life it will be of interest to students of american history business and labor history this is an excellent introduction to the subject wide ranging authoritative and accessible the presentation of key concepts in the understanding of contemporary childhood followed by a series of thematic explorations makes for an effective combination of breadth and depth i would recommend it to students in particular nigel thomas professor emeritus of childhood and youth uclan this book studies the world of the soviet consumer and the specific problems which discussed the power of capital is the power to target our attention mould market ready identities and reduce the public realm to an endless series of choices this has far reaching implications for our psychological physical and spiritual well being and ultimately for our global ecology in this consumer age the underlying teachings of buddhist mindfulness offer more than individual well being and resilience they also offer new sources of critical inquiry into our collective condition and may point in time to regulatory initiatives in the field of well being this book draws together lively debates from the new economics of transition commons and well being consumerism and the emerging role of mindfulness in popular culture engaged buddhist practices and teachings correspond closely to insights in contemporary political philosophical investigations into the nature of power notably by michel foucault the attention economy can be understood as a new arena of struggle in our age of neoliberal governmentality as the forces of enclosure having colonized forests land and the bodies of workers are now extended to the realm of our minds and subjectivity this poses questions about the recovery of the mindful commons the practices we must cultivate to reclaim our attention time and lives from the forces of capitalization this is a valuable resource for students and scholars of environmental philosophy environmental psychology environmental sociology well being and new economics political economy environmental politics the commons and law as well as buddhist theory and philosophy eurocentrism influences virtually all established historical writing with the rise of prussia and by extension europe eurocentrism became the dominant paradigm for world history employing the approaches of gramsci and foucault peter gran proposes a reconceptualization of world history he challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts gran maintains that there is no single
