the lloyd s register technical association lrta was established in 1920 with the primary objective of sharing technical expertise and knowledge within lloyd s register publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946 these publications serve as a key reference point for best practices and were initially reserved for internal use to maximise lr s competitive advantage today the lrta takes a fresh approach focusing on collaboration by combining professional expertise from across lrf group to ensure a frequent output of fresh perspectives and relevant content the lrta has evolved into a group wide initiative that identifies captures and shares knowledge spanning various business streams and functions to support this modern approach the lrta has adopted a new structure featuring representatives and senior governance across the business streams and the lr foundation the lloyd s register technical association papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current lr technical association the lloyd s register staff association lrsa changed its name to the lloyd s register technical association lrta in 1973
