this book considers the transmission of the sunna through the lens of the great madinan legal scholar imam malik ibn anas d 179 ah 795 ce in his renowned book al muwatta or the well trodden path it considers not only the legal judgements preserved in this book but also the key scholars involved in the transmission of these judgements namely malik s teachers and students these different transmissions provide very strong evidence for the reliability of malik s transmission of the sunna overriding these textual considerations is the concept of amal or the practice of the people of medina this is accepted as a prime source by malik and those following him but is effectively rejected by the other schools who prefer hadith textual reports as an indication of sunna given the contested nature of amal in both ancient and modern times and the general unawareness of it in contemporary islamic studies this source receives extended treatment here this allows for a deeper understanding of the nature of islamic law and its development and by extension of islam itself life is full of stupidity the author sees stupid stories in everyday life of people on streets in homes his observations are unique reverse gear is all about a man trying to become young again how can you lose a million by drinking tea at home losing your memory can get your beloved back a table fan can revive your sex life a wrong nos can change your life how can a bottle of whiskey save your life love deceit romance sex money politics power everything has stupidity playing it s part you just have to enjoy what s happening as the world churns out new stories by the second we will talk about a great imam we will talk about one of the imams of decency and knowledge he was imam malik ibn anas imam of the abode of emigration darul hijrah this imam received great respect throughout history which immortalized him and his doctrine it became the base

of jurisprudence in many muslim countries during his time and in the present some countries are still using it like many of the arabian gulf countries some countries did lose their islamic character but when they were muslims they adopted the maliki school like andalusia and sicily they were among the muslim countries that adopted this great doctrine the muslim era ended but it will return if allah wills history immortalized imam malik not only as one of the great imams but as one of the four imams followed by this nation a large number actually millions followed these four schools because of their unique effort and great service to the religion of allah particularly in sharia islamic law and jurisprudence therefore scholars and the public followed these four schools it seems that the satanists have won doesn't it everything has been turned upside down the world is frolicking within the death throes of the new age it's an era of depravity insolence and evaporated dreams that have turned into nightmares the godless gorge themselves on an unwary comatose public infatuated with reckless and vain desires the war has begun the 7 realms have been infiltrated by demonic generals and satanic soldiers all facets of life have been confiscated economies traditions entertainment and teaching institutions have been taken over and mutated into something sinister and without mercy cities that were once the pearls of the old world have become nothing but ruins of smoke poverty and dilapidated infrastructures nothing was the same after babylonia the great waged a nuclear war on its rivals and even before the greatest war waged the world showed signs of madness and confusion the gww was mentioned by the religious scholars of the old world armageddon or malhama al kubra was prophesied by messengers of god in periods of time forgotten and lost only a few remained vigilant and faithful towards god the balance of the world fell into the clutches of a satanic regime determined to destroy the essential core of man within these perilous times the emergence of the anti christ took center stage the one eyed chief deceiver became the prominent influencer for the detrimentally lost the engine of evil the demonic forces beckoned this diabolical leader's arrival and when he arrived he unleashed his baggages of

debauchery and hatred towards humans the world was in complete chaos and division although the light of the ineffable can never be extinguished this is a spiritual law the demonic insurgence couldn't anticipate the resistance that took place the psychological nets of stupidity and vanity were supposed to suppress the citizens of the 7 realms but somehow a band of good humans broke through the indoctrination programs of babylonia the great some said that they were led by angels some rumors suggested that they were the literal moving hand of god whatever the gossip the satanic generals couldn't have fathomed that there would be a counter force so efficient and surgical in their executions this is a story of perseverance and an example of the human potential when unity is the defining factor alan brodie a highly decorated former special forces operative in the british army is a trained killer with extensive experience in undercover black ops in the deadly battlefields of iraq afghanistan and other deniable war zones retired from the military and now working in the private security sector brodie has just agreed to buy a beach front bar restaurant in the almeria region of spain unknown to brodie the previous owner was being coerced by a ruthless drug cartel into allowing his premises to be used as an undercover distribution point for their illegal trade and it seems they will not take no for an answer then they come head to head with the professional killer that is alan brodie while taking possession of the bar brodie is persuaded by local police chief comisario moreno into helping him bring down these drug dealers moreno insisting that he works with the beautiful enigmatic sergeant anita malik but no one is prepared for the explosion of violence that brodie unleashes on the ruthless cartel as brodie and malik work together to infiltrate and break the drug cartel they become close but is the seductive sergeant malik all that she seems the world of chief malik the chief of molecules and the microverse takes place in a stunningly detailed metropolis with towering structures that look like microscope slides providing a sense of scale as he and his team navigate their way through the city as the story progresses the setting shifts to the intricate and awe inspiring

since the beginning of time the demonic races have gathered every century to resolve conflicts among them and to determine the course of their future this centennial event was called the dark congress in the second century b c however the dark congress failed to resolve their conflicts instead the congress ignited into a war that drove wedges between the various demon races from that time until now and all of it began as a result of kandida the great north african river demon being nearly killed by forces in the congress and magically entombed in the riverbank but now kandida is free and for the first time in centuries the dark congress is being called again all demon races and other varieties of supernatural creatures have been called to gather at the hellmouth in providence rhode island some gather in hopes of resolution some in favor of war and kandida is tasked to broker a treaty and guide the congress to peace wherein everyone might simply agree to disagree and so the demons gather under a banner of a truce but the demons still harbor many bitter disagreements with one another the congress must have an arbiter of these conflicts

and that someone is buffy summers buffy is horrified and disgusted to be included after all she is not a demon is she she knows so little about her powers that she cannot say for certain where they truly spring from how can she spend so much time wallowing in the darkness without becoming part of it can she possibly agree to a truce with all the horrors of the world and allow them to come providence without any attempt to stop them and does she have a choice
