indirect allegorical ways of expressing forbidden topics and issues in their films but for many allegory is much more than a foil against haphazardly applied censorship rules drawing on a long history of allegorical expression in persian poetry and the arts allegory has become an integral part of the poetics of iranian cinema allegory in iranian cinema explores the allegorical aesthetics of iranian cinema explaining how it has emerged from deep cultural traditions and how it functions as a strategy for both supporting and resisting dominant ideology as well as tracing the roots of allegory in iranian cinema before and after the 1979 revolution langford also theorizes this cinematic mode she draws on a range of cinematic philosophical and cultural concepts developed by thinkers such as walter benjamin gilles deleuze pier paolo pasolini christian metz and vivian sobchack to provide a theoretical framework for detailed analyses of films by renowned directors of the pre and post revolutionary eras including masoud kimiai dariush mehrjui ebrahim golestan kamran shirdel majid majidi jafar panahi marziyeh meshkini mohsen makhmalbaf rakhshan bani etemad and asghar farhadi Cuban affiliated L C N an in depth and nuanced look at the complex relationship between two dynamic fields of study while today we are experiencing a revival of world art and the so called global turn of art history encounters between art historians and anthropologists remain rare even after a century and a half of interactions between these epistemologies a skeptical distance prevails with respect to the disciplinary other this volume is a timely exploration of the roots of this complex dialogue as it emerged worldwide in the colonial and early postcolonial periods between 1870 and 1970 exploring case studies from Australia Austria Brazil France Germany and the United States this volume addresses connections and rejections between art historians and anthropologists often in the contested arena of primitive art it examines the roles of a range of figures including the art historian anthropologist Aby Warburg the modernist artist Tarsila do Amaral the curator impresario Leo Frobenius and museum directors such as Alfred Barr and René D'Harnoncourt entering the current debates on decolonizing the past this collection of essays prompts reflection on future relations between tasting there are also recommendations for the best value hotels and restaurants specializing in regional produce the first in depth catalog of work by one of the South's finest African American wood carvers in this remarkable book the oft told narrative of Sir Walter Raleigh is blown apart through the chance discovery of hitherto neglected Dutch correspondence found in a Swedish archive following an exciting paper trail through Jacobean history to modern day Venezuela professor Sellin makes a convincing case for Raleigh's innocence of the charges that led him to the block in 1618 spurred on by these documents Sellin undertook two excursions up the Orinoco river in Raleigh's wake using Raleigh's 1596 book the Discoverie of Guiana as a guide these trips convinced him that far from being a fanciful blend of fact and fiction the Discoverie is a remarkably accurate and verifiable document which allowed him to locate Raleigh's gold lode on Cerro Redondo a short distance inland from present day Los Castillos Venezuela in place of a deceitful and scheming Raleigh Sellin demonstrates how the Duke of Buckingham manoeuvred to have Raleigh executed on trumped up charges this left the way open for him to conspire with foreign powers to try to acquire the very mine he claimed Raleigh had invented to justify his actions against Spanish interests in Venezuela it is rare for a scholarly book to profoundly shake widely accepted views of so well known an historical figure as Sir Walter Raleigh but that is exactly what Paul Sellin achieves here crammed with tales of treasure treason murder and a logical place for americans to extend their economic and cultural influence in the hemisphere overland travel between the united states and mexico became instantly faster smoother and cheaper when workers connected the two countries rail lines in 1884 creating intense curiosity in the united states about mexico its people and its opportunities for business and pleasure as a result so many americans began to travel south of the border during the porfiriato that observers from both sides of the border began to quip that the visiting hordes of tourists and business speculators constituted a foreign invasion a phrase laced with irony given that it appeared at the height of public debate in the united states about the nation's imperial future these travelers created a rich and varied record of their journeys constructing mexico as a nation at the cusp of modernity but requiring foreign intervention to reach its full potential anzac battlefield a gallipoli landscape of war and memory explores the transformation of gallipoli's landscape in antiquity during the famed battles of the first world war and in the present day drawing on archival archaeological and cartographic material this book unearths the deep history of the gallipoli peninsula setting the gallipoli campaign in a broader cultural and historical context the book presents the results of an original archaeological survey the research for which was supported by the australian new zealand and turkish governments the survey examines materials from both sides of the battlefield and sheds new light on the environment in which anzac and turkish soldiers endured the conflict richly illustrated with both ottoman and anzac archival images and maps as well as original maps and photographs of the landscape and archaeological findings anzac battlefield is an important contribution to our understanding of gallipoli and its landscape of war and memory i am not an author but i've kept a journal for most of my life when i was in my teen years i wrote in my journal but also wished i could know the thoughts and read the journal of another teenager i thought i was the only one feeling what i was feeling my first intention with this book is to provide my diaries as a written display that the stages one goes through as a teenager while unique are also relatable my second intention is self serving i put this project together to better understand myself and i would encourage others to do the same you may now come on the journey of my life starting with my early adolescence follow me as i change my desired occupation more times than i can count get harassed for my sexual experimentation search for god and experience many other hills and valleys along my pathway this book is about

one quarter of my journal i took out what i thought was repetitive or rather me just blabbering on and certain secrets about people that i wouldn't want revealed i also combined some entries to avoid repetition and all of the names in this book are fictitious other than that everything is real and raw because of these journals i clearly remember being a teenager i felt alone even though there were people all around me i felt completely misunderstood i constantly felt betrayed i felt awkwardly sexual and i felt full of a slight rage i couldn't understand i felt i had a lot to say with thousands of questions that no one cared to answer i wish someone had told me that it would get easier everyone told me life gets tougher with responsibilities i believe that people don't truly remember what it was like to be a teenager life is more stressful now but do people truly remember what it was like to feel as powerless as they did when they were teenagers i remember it's hard not to with my journals i am now in my midtwenties and going back through my life to try and learn more about myself this book presents my journey thus far it is finally the summer holidays and olina and her family are off to spend time by the sea with birk smuggled in her magical backpack and a mysterious note from bombil olina is ever hopeful that another magical adventure and new friendships could be on the rise this is the third book in the olina series we analyze the impact of exchange of information in tax matters in reducing international tax evasion between 1995 and 2018 based on bilateral deposit data for 39 reporting countries and more than 200 counterparty jurisdictions we find that recent automatic exchange of information frameworks reduced foreign owned deposits in offshore jurisdictions by an average of 25 percent this effect is statistically significant and as expected much larger than the effect of information exchange upon request which is not significant furthermore to test the sensitivity of our findings we estimate countries offshore status and the impact of information exchange simultaneously using a finite mixture model the results confirm that automatic and not upon request exchange of information impacts cross border deposits in offshore jurisdictions which are characterized by low income tax rates and strong financial secrecy

i am not an author but i ve kept a journal for most of my life when i was in my teen years i wrote in my journal but also wished i could know the thoughts and read the journal of another teenager i thought i was the only one feeling what i was feeling my first intention with this book is to provide my diaries as a written display that the stages one goes through as a teenager while unique are also relatable my second intention is self serving i put this project together to better understand myself and i would encourage others to do the same you may now come on the journey of my life starting with my early adolescence follow me as i change my desired occupation more times than i can count get harassed for my sexual experimentation search for god and experience many other hills and valleys along my pathway this book is about one quarter of my journal i took out what i thought was repetitive or rather me just blabbering on and certain secrets about people that i wouldn t want revealed i also combined some entries to avoid repetition and all of the names in this book are fictitious other than that everything is real and raw because of these journals i clearly remember being a teenager i felt alone even though there were people all around me i felt completely misunderstood i constantly felt betrayed i felt awkwardly sexual and i felt full of a slight rage i couldn t understand i felt i had a lot to say with thousands of questions that no one cared to answer i wish someone had told me that it would get easier everyone told me life gets tougher with responsibilities i believe that people don t truly remember what it was like to be a teenager life is more stressful now but do people truly remember what it was like to feel as powerless as they did when they were teenagers i remember it s hard not to with my journals i am now in my midtwenties and going back through my life to try and learn more about myself this book presents my journey thus far

we analyze the impact of exchange of information in tax matters in reducing international tax evasion between 1995 and 2018 based on bilateral deposit data for 39 reporting countries and more than 200 counterparty jurisdictions we find that recent automatic exchange of information frameworks reduced foreign owned deposits in offshore jurisdictions by an average of 25 percent this effect is statistically significant and as expected much larger than the effect of information exchange upon request which is not significant furthermore to test the sensitivity of our findings we estimate countries offshore status and the impact of information exchange simultaneously using a finite mixture model the results confirm that automatic and not upon request exchange of information impacts cross border deposits in offshore jurisdictions which are characterized by low income tax rates and strong financial secrecy
