international law has sought to configure itself as a universal system yet despite the best efforts of international institutions scholars and others to assert the universal application of international law its relevance and applicability has been influenced if not directed by political power today the decline of the west and ascent of china and india pose particular challenges for international law and institutions the international system appears to be moving towards multipolarity with various sites of power competing to exert influence in the world today with contributors from a variety of countries providing perspectives from the disciplines of international law and international relations theory international law in a multipolar world addresses the implications that multipolarity poses for the international legal system contributors including jean d aspremont jörg kammerhofer alexander orakhelashvili christian pippan and nigel white explore issues such as the use of force governance and democracy regionalism and the relevance of the united nations in a multipolar world while considering the overarching theme of the relationship between power and law international law in a multipolar world is of particular interest to academics and students of public international law international relations theory and international politics straits are peripheral formations in the study of geography but have long been a source of controversy in international relations they connect separate seas and divide the territory of states this geographical fact invites legal disputes over international boundary drawing request for passage by foreign ships assertion of territorial control over the waters forming straits and the basis for a regime generally accepted as law in our times this is a thorough and well documented book which combines elements of history geography international shipping and the law of the sea it asks the central question what exactly is the current law governing this area and also goes on to consider the concept of international straits the distinction between existing treaty based regimes and the general regime and the special characteristics of straits that separate them from similar arms of the sea in terms of law in answering these questions the author takes us back to the first regime for international straits in 1949 through to the practices of the present day this will be an invaluable text for all international lawyers particularly those specializing in the law of sea neutrality is a legal relationship between a belligerent state and a state not participating in a war namely a neutral state the law of neutrality is a body of rules and principles that regulates the legal relations of neutrality the law of neutrality obliges neutral states to treat all belligerent states impartially and to abstain from providing military and other assistance to belligerents the law of neutrality is a branch of international law that developed in the nineteenth century when international law allowed unlimited freedom of sovereign states to resort to war thus there has been much debate as to whether such a branch of law remains valid in modern international law which generally prohibits war and the use of force by states while there has been much debate regarding the current status of neutrality in modern international law there is a general agreement among scholars as to the basic features of the traditional law of neutrality wani challenges the conventional understanding of the traditional neutrality by re examining the historical development of the law of neutrality from the sixteenth century to 1945 the modification of the conventional understanding will provide a fundamentally new framework for discussing the current status of neutrality in modern international law carter law georgetown u trimble emeritus law u of california at los angeles and bradley law u of virginia present a casebook designed for an introductory course in international law in addition to the standard subjects it explores the relationship between international law and domestic law and the blurred line between public and private law the edition has been updated to include material related to the war in iraq as of april 2003 the september 11th attacks and recent decisions of the international court of justice including congo v belgium on official immunity annotation c 2003 book news inc portland or booknews com this book examines the status of private actors as subjects of law under the rules of the international law of the sea providing a methodology for the notion of a single legal personality it provides a clear understanding of membership in international law in

order to establish to what extent private actors can be rights holders or duty bearers it does this by taking a theoretical perspective which allows the reader to interpret their relevance in international law this unique and innovative work makes a significant contribution to the current scholarly debates on private actors in international law this text examines key concepts in international law in order to illuminate them in the context of international relations the first part of the book covers theoretical issues the second part examines international law in context including case study material and the Pinochet litigation whilst the concept of jus cogens has grown increasingly more important in public international law lawyers remain hugely divided both over what precisely confers a jus cogens status on a norm and what this conferral implies in terms of legal consequences in this ground breaking book Ulf Linderfalk clearly and succinctly explores the reasons for this divide in order to facilitate more rational and productive future discourse due diligence in international law is the first ever international law monograph on the missing link between state responsibility and international liability that is the international law principle of due diligence ensuring international cooperation cybersecurity and preventing significant transboundary harm this second revised edition takes into account the decision of the international court of justice in the Nottebohm case which was published just as the first edition was going to press and therefore received only cursory treatment it also of course includes an analysis of international legislation adopted since 1955 including the 1961 UN Convention on the Reduction of Statelessness the 1957 UN Convention on the Nationality of Married Women and the 1966 International Covenant on Civil and Political Rights the decisions of international tribunals and in particular of the Italian Conciliation Commissions are analysed finally the author presents legislative judicial and governmental practice during the twenty two years after beginning with a clear definition of terms the author analyses the functions of nationality in international law the relationship between municipal and international law and then the public international law of nationality in this latter part he examines international conventions international custom and the principles of law generally recognized with regard to nationality the book ends with a summary and conclusions dealing with the existing law and future developments since 1985 the law school at the University of Hull has hosted an annual lecture the Josephine Onoh Memorial Lecture given by a distinguished international lawyer these annual lectures are funded by the Josephine Onoh Memorial Fund established in 1984 by the family and friends of Josephine Onoh who was tragically killed in an air crash at Enugu Nigeria in November 1983 Josephine was a Hull Law graduate and at the time of her death was registered at the university for a research degree in the field of international law this book contains a collection of these annual lectures the first lecture in 1985 was given by the late Judge Taslim Elias at that time president of the international court of justice subsequent lectures have been given by both leading practitioners and professors of international law including Sir Robert Jennings Bin Cheng Sir Ian Sinclair Philip Allott Henry Schermers Lord Mackenzie Stuart Alexandre Charles Kiss Dame Rosalyn Higgins Peter Sand Ian Brownlie Christopher Greenwood Marti Koskenniemi and Ralph Zacklin the lectures reflect some of the most significant international concerns of the last two decades the subjects they address include new trends in international law international courts and politics the practitioner's view of international law international law and revolution the European Convention of Human Rights European Community Law Concepts the Global Environment and International Law the current role of the United Nations International Environmental Trust Funds International Boundary Law International Law and Imperialism and Humanitarian Intervention this important collection of essays by some of the leading international law figures of our generation will be of equal value to all interested in international law whether the academic or the practitioner this new edition of Hugh Thirlway's authoritative text provides an introduction to one of the fundamental questions of the discipline what is and what is not a source of international law traditionally treaties between states and state practice were seen as the primary means with which to create

international law however more recent developments have recognized customary international law alongside international treaties and instruments as a key foundation upon which international law is built this book provides an insightful inquiry into all the recognized or asserted sources of international law it investigates the impact of ethical principles on the creation of international law whether soft law norms come into being through the same sources as binding international law and whether jus cogens norms and those involving rights and obligations erga omnes have a unique place in the creation of international legal norms it studies the notion of general principles of international law within international law's sub disciplines and the evolving relationship between treaty based law and customary international law re examining the traditional model it investigates the increasing role of international jurisprudence and looks at the nature of international organisations and non state actors as potential new sources of international law this revised and updated book provides a perfect introduction to the law of sources as well as innovative perspectives on new developments making it essential reading for anyone studying or working in international law this book takes the reader on a sweeping tour of the international legal field to reveal some of the patterns of difference dominance and disruption that belie international law's claim to universality pulling back the curtain on the divisible college of international lawyers anthea roberts shows how international lawyers in different states regions and geopolitical groupings are often subject to distinct incoming influences and outgoing spheres of influence in ways that reflect and reinforce differences in how they understand and approach international law these divisions manifest themselves in contemporary controversies such as debates about crimea and the south china sea not all approaches to international law are created equal however using case studies and visual representations the author demonstrates how actors and materials from some states and groups have come to dominate certain transnational flows and forums in ways that make them disproportionately influential in constructing the international this point holds true for western actors materials and approaches in general and for anglo american and sometimes french ones in particular however these patterns are set for disruption as the world moves past an era of western dominance and toward greater multipolarity it is imperative for international lawyers to understand the perspectives and approaches of those coming from diverse backgrounds by taking readers on a comparative tour of different international law academies and textbooks the author encourages them to see the world through the eyes of others an essential skill in this fast changing world of shifting power dynamics and rising nationalism offering a more accessible alternative to casebooks and historical commentaries law among nations explains issues of international law by tracing the field's development and stressing key principles processes and landmark cases this comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases the book has been updated in light of the continuing revolution in communication technology the dense web of linkages between countries that involve individuals and bodies both formal and informal and covers important and controversial areas such as human rights the environment and issues associated with the use of force renowned for its rigorous approach and clear explanations law among nations remains the gold standard for undergraduate introductions to international law new to the eleventh edition added or expanded coverage of timely issues in international law drones and their use in the air and in space immigration islamic views of international law inviolability and the difference between diplomatic immunity and sovereignty in light of the benghazi attack thoroughly rewritten chapters in areas of great change international criminal law just war and war crime law new cases statutes and treaties on many subjects first published in 1970 akehurst's modern introduction to international law rapidly established itself as a widely used and successful textbook in its field being the shortest of all the major textbooks in this area it continues to offer a concise and accessible overview of the concepts themes and issues central to the growing system of international law while retaining akehurst's original positivist approach that accounts for

the essence and character of this system of law this new 9th edition has been further revised and updated by alexander orakhelashvili to take account of a plethora of recent developments and updates in the field accounting for over 40 decisions of international and national courts as well as a number of treaties and major incidents that have occurred since the 8th edition of this textbook published based on transparent methodology and with a distinctive cross jurisdictional approach which opens up the discipline to students from all backgrounds this engaging well structured and reputable textbook will provide students with all the tools methods and concepts they need to fully understand this complex and diverse subject it is an essential text for all undergraduate and postgraduate students of international law government and politics and international relations this book is one of the only textbooks in international law to offer a fully updated bespoke companion website [routledge.com/cw/orakhelashvili](http://routledge.com/cw/orakhelashvili) this volume covers the formal structures of the un as it has expanded over the years and all that this complex organization does all substantive issues are addressed in separate sections including among others the responsibilities of the un financing immunities human rights preventing armed conflicts and peacekeeping and judicial matters in examining the evolving structures and ever expanding work of the united nations this volume follows the long held tradition of oppenheim by presenting facts uncoloured by personal opinion in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored it is book that while making all necessary reference to the charter the statute of the international court of justice and other legal instruments tells of the realities of the legal issues as they arise in the day to day practice of the united nations the character of international law between scholarly reflection of foreign policy expediencies and recognising prescriptive rules binding on all concerned has long been a particular challenge to those active in the field law is not law if there is no procedure to both determine its contents and to show ways to enforce it it is through its procedures that international law becomes real based on an overview of the varied procedures e g in both the hague s and the national courts and those found in international organisations a more consistent picture of international law emerges this compendium for students and practitioners is accessible yet sophisticated in its approach

**International Law** 2007 fundamentals of public international law by giovanni distefano provides an overview of public international law s main principles and fundamental institutions

Fundamentals of Public International Law 2019-05-07 this book revisits the theory of the sources of international law from the perspective of formalism it critically analyses the virtues of formalism construed as a theory of law ascertainment as a means of distinguishing between law and non law the theory of formalism is re evaluated against the backdrop of the growing acceptance by international legal theorists of the blurring of the lines between law and non law at the same time the book acknowledges that much international normative activity nowadays takes place outside the ambit of traditional international law and that only a limited part of the exercise of public authority at the international level results in the creation of international legal rules the theory of ascertainment that the book puts forward attempts to dispel some of the illusions of formalism that accompany the traditional sources of international law it also sheds light on the tendency of scholars theorists and advocates to deformalize the identification of international legal rules with a view to expanding international law the book seeks to revitalize and refresh the formal identification of rules by engaging with some tenets of the postmodern critique of formalism as a result the book not only grapples with the practice of law making at the international level but it also offers broad theoretical insights on international law dealing with the main schools of thought in legal theory positivism naturalism legal realism policy oriented jurisprudence and postmodernism this paperback edition features the author s discussion of this book on the ejil talk blog

**Formalism and the Sources of International Law** 2013-05-23 this book examines theoretical and practical issues concerning the relationship between international law time and history problems relating to time and history are ever present in the work of international lawyers whether understood in terms of the role of historic practice in the doctrine of sources the application of the principle of inter temporal law in dispute settlement or in gaining a coherent insight into the role that was played by international law in past events but very little has been written about the various different ways in which international lawyers approach or understand the past and it is with a view to exploring the dynamics of that engagement that this book has been compiled in its broadest sense it is possible to identify at least three different ways in which the relationship between international law and its history may be conceived the first is that of a history of international law written in narrative form and mapped out in terms of a teleology of origins development progress or renewal the second is that of history in international law and of the role history plays in arguments about law itself for example in the construction of customary international law the third way of understanding that relationship is in terms of international law in history of understanding how international law has been engaged in the creation of a history that in some senses stands outside the history of international law itself the essays in this collection make clear that

each type of engagement with history and international law interweaves various different types of historical narrative pointing to the typically multi layered nature of international lawyers engagement with the past and its importance in shaping the present and future of international law
