maximize the value of hr investments they provide powerful techniques for looking inside the hr black box implementing human capital metrics that track the effectiveness of talent policies and practices demonstrating the logical connections to financial and line of business and using hr metrics to drive more effective decision making using their powerful lamp methodology logic analytics measures and process the authors demonstrate how to measure and analyze the value of every area of hr that impacts strategic value

Managerial Accounting 1947

this book contains a collection of research papers on accounting information systems including their strategic role in decision processes within and between companies an accounting system is a complex system composed of a mix of strictly interrelated elements such as data information human resources it tool accounting models and procedures accounting information systems are often considered the instrument by default for accounting automation this book aims to sketch a clear picture of the current state of ais research including design acceptance and reliance value added decision making interorganizational links and process improvements the contributions in this volume emphasize that ais has grown into a powerful strategic tool the book provides evidence for this observation by examining a wide range of current issues ranging from theory development in ais to practical applications of accounting information systems in particular it focuses on

themes of growing interest in the realm of xbrl and financial reporting management information systems it is audit and it is compliance the book will be of interest to financial and managerial accountants and it is practitioners including information systems managers and consultants

Practitioners' Journal 2022-10-12

this book provides a broad overview of how sustainability reporting has grown how it is used now and where it is heading daily we read and hear in various media about concepts such as corporate social responsibility csr sustainability reporting sustainability accounting environmental reports corporate citizenship or environmental management systems accounting for sustainability decodes this terminology by providing an accessible introduction to the topic that explores sustainability reporting from an internal and external perspective it begins with an overview of how sustainability reporting has emerged and why it is important before moving on to cover definitions of key terms and specific theories and frameworks subsequent chapters explore the role of financial management sustainability standards accounting communication and capital markets with learning outcomes and study questions embedded in each chapter this book will be of great interest to students of sustainability reporting and accounting as well as practitioners taking related professional accreditations

Eurasian Business and Economics Perspectives 2020-08-19

this book examines the relationship between digital innovations on the one hand and accounting and management information systems on the other in particular it addresses topics including cloud computing data mining xbrl and digital platforms it presents an analysis of how new technologies can reshape accounting and management information systems enhancing their information potentialities and their ability to support decision making processes as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies focusing on the four major aspects data management information system architecture external and internal reporting the book offers a valuable resource for cios cfos and more generally for business managers as well as for researchers and scholars it is mainly based on a selection of the best papers original double blind reviewed contributions presented at the 2015 annual conference of the italian chapter of the association for information systems ais
