myths and stereotypes surrounding seafarers in the age of sail persist to this day sailors were celebrated for their courage strength and skill yet condemned for militancy vice and fecklessness as sail gave way to steam sailing ship mariners became nostalgic symbols of maritime prowess and heritage representing a timeless heroic masculinity in an era when the modernizing industrial world was challenging assumptions about gender class work and society drawing on british seafaring memoirs from the late nineteenth century making men in the age of sail argues that maritime writing moulded the reading public s image of the merchant seaman authors chronicled their lives as they grew from boy sailors to trained seafarers telling colourful tales of the men they worked with most never doubted that the sailing ship had made them better men their testimony reinforced and preserved conservative perspectives on seafaring manhood as britain s economic and technological priorities continued to evolve in the new steamship age offering a gender analysis of the image of the seafarer making men in the age of sail brings the history of british sailors into wider debates about modernity and masculinity in 2016 netflix with an already enormous footprint in the united states expanded its online streaming video service to 130 new countries adding more than 12 million subscribers in nine months and bringing its total to 87 million the effectiveness of netflix s content management lies in its ability to appeal to a vastly disparate global viewership without a unified cache of content instead the company invests in buying or developing myriad programming and uses sophisticated algorithms to narrowcast to micro targeted audience groups in this collection of new essays contributors explore how netflix has become a cultural institution and transformed the way we consume popular media this book is intended for western students of the chinese language who wish to take the chinese language proficiency exam hànyu shuipíng kaoshì hsk either for academic reasons when planning to enroll for studies at a university in mainland china or for any other professional or personal reasons this book contains lists of vocabulary and chinese characters that students are required to know for the six different levels of the hsk exam it is intended as a reference guide to essential vocabulary and chinese characters as well as to the grammar aspects that will be requested within the exam in one of the various ways of the communicative tasks assigned to the candidate this book should be used in conjunction with the official monolingual textbooks available for each level of the hsk exam as a guide of bilingual reference throughout the preparation process for the exam at each proficiency level there is an optional interactive multimedia application that can be used in combination with the book its features and benefits are described on the last two pages of the book the application can be downloaded free of charge by anyone who has purchased a copy of the book if you re in the business of marketing or developing products and programs for kids what kids buy and why belongs in your office how can you create outstanding products and programs that will win in the marketplace and in the hearts of kids and parents dan s acuff and robert h reiher have invented a development and marketing process called youth market systems that puts the needs abilities and interests of kids first this system makes sure you won t miss the mark whether you re trying to reach young children or teens boys or girls or whether you re selling toys sports equipment snacks school supplies or software based on the latest child development research what kids buy and why is chock full of provocative information about the cognitive emotional and social needs of each age group this book tells you among other things why 3 through 7 year olds love things that transform why 8 through 12 year olds love to collect stuff how the play patterns of boys and girls differ and why kids of all ages love slapstick what kids buy and why is the result of acuff and reiher s almost twenty years of consulting with high profile clients including johnson johnson nike microsoft nestle tyco disney pepsi warner brothers lucasfilm amblin spielberg mattel hasbro kraft coca cola quaker oats general mills broderbund bandai sega abc cbs i hop domino s hardee s and kellogg s special features include an innovative matrix for speedy accurate product analysis and program development a clear step by step process for making decisions that increase your product s appeal to kids tools and techniques for creating characters that kids love here is the complete one stop tool for understanding what children of all ages want to buy this volume offers a stimulating perspective on the status of representations of a new kind of female character who emerged on the scene on us television in the mid 2000s that of the anti heroine this new figure rivaled her earlier counterpart the anti hero in terms of her complexity and was multi layered and morally flawed looking at the cable channels showtime and hbo as well as netflix and abc television this volume examines a range of recent television women and shows including homeland weeds scandal how to get away with murder veep girls and orange is the new black as well as a host of other nighttime programs to demonstrate just how dominant the anti heroine has become on us television it examines how the figure has arisen within the larger context of the turn towards quality television that has itself been viewed as part of the post network era or the third golden age of television where new forms of broadcast delivery have created a marketing incentive to deliver more compelling characters to niche audiences by including an exploration of the historical circumstances as well as the industrial context in which the anti heroine became the dominant leading female character on nighttime television the book offers a fascinating study that sits at the intersection of gender studies and television as such it will appeal to scholars of popular culture sociology cultural and media studies serialized storytelling provides intriguing opportunities for critical representations of age and aging in contrast to the finite character of films television narratives can unfold across hundreds of episodes and multiple seasons contemporary viewing practices and new media technologies have resulted in complex television narratives in which experimental temporalities and revisions of narrative linearity and chronological time have become key features as the first of its kind this volume investigates how tv series as a

powerful cultural medium shape representations of age and aging such as in orange is the new black the wire or desperate housewives to understand what it means to live in time goodall reveals the ways in which the major themes of evolution were taken up in the performing arts during darwin s adult lifetime and in the generation after his death the unofficial guide to the disney cruise line is your no nonsense consumer oriented guide to disney s cruise vacations we ll point out the best of disney s ships and itineraries including a couple of stellar restaurants top notch children s activities and castaway cay one of the best vacation islands in the caribbean we ll also tell you which on board entertainment and restaurants should be skipped including what to do instead along the way we ll show you how to save money choose the right stateroom ship and itinerary and how to get to and from your cruise with ease despite the fact that the name of many characters mentioned in the old testament like david king of israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved most archaeologists continue to deny the historicity of the bible they view as pious fiction or a mythical account they argue that the major events in the bible such as the victory of abraham against chedorlaomer an unknown king of elam around 2000 bce the victory of moses against an unknown pharaoh around 1500 bce or the victory of esther an unknown persian queen against an unknown vizier of xerxes never existed because they left absolutely no evidence they also explain that according to what we know today these events could not have occurred these logical arguments are impressive but a precise chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major events really took place at the dates and places indicated after an extensive introduction that takes stock of the relevant research literature on old age in the middle ages and the early modern age the contributors discuss the phenomenon of old age in many different fields of late antique medieval and early modern literature history and art history both beowulf and the hildebrandslied both wolfram von eschenbach s parzival and titurel both the figure of merlin and the trans european tradition of perceval peredur parzival then the figure of the vetula in a variety of medieval french english and spanish texts and of the old man in the stricker s daniel both the treatment of old age in langland s piers the plowman and in jean gerson s sermons are dealt with other aspects involve late antique epistolary literature early modern french farce in light of disability studies the social role of old impotent men in sixteenth and seventeenth century netherlandish paintings and the scientific discourse of old age and health since the 1500s the discourse of old age proves to have been of central importance throughout the ages so the critical examination of the issues involved sheds intriguing light on the cultural history from late antiquity to the seventeenth century children of almost any age can break the law but at what age should children first face the possibility of criminal responsibility for their alleged crimes this work is the first global analysis of national minimum ages of criminal responsibility macrs the international legal obligations that surround them and the principal considerations for establishing and implementing respective age limits taking an international children s rights approach with a rich theoretical framework and the vitality of the un convention on the rights of the child this work maintains a critical perspective such as in challenging the assumptions of many children s rights scholars and advocates compiling the age limits and statutory sources for all countries this book explains the broad historical origins behind most of them identifying the recurring practical challenges that affect every country and providing the first comprehensive evidence that a general principle of international law requires all nations regardless of their treaty ratifications to establish respective minimum age limits with fascism on the march in europe and a second world war looming a group of britain s leading intellectuals including t s eliot karl mannheim john middleton murry j h oldham and michael polanyi gathered together to explore ways of revitalising a culture that seemed to have lost its way the group called themselves the moot drawing on previously unpublished archival documents this is the first in depth study of the group s work writings and ideas in the decade of its existence from 1938 1947 christian modernism in an age of totalitarianism explores the ways in which an important and influential strand of modernist thought in the interwar years turned back to christian ideas to offer a blueprint for the revitalisation of european culture in this way the book challenges conceptions of modernism as a secular movement and sheds new light on the culture of the late modernist period the original eight volumes now complete and unabridged in four though scholarly in the true sense of the word this work can also be read and understood by those not formally trained in theology charles c ryrie this book comprises an introduction to information as an external commodity a data base that can be manipulated retrieved transmitted and used it is useful at an introductory undergraduate level and also for anyone who is new to the field of information science
