more than any other sport baseball has developed its own niche in america s culture and psyche some researchers spend years on detailed statistical analyses of minute parts of the game while others wax poetic about its players and plays many trace the beginnings of the civil rights movement in part to the major leagues decision to integrate and the words and phrases of the game for example pinch hitter and out in left field have become common in our everyday language from aaron henry onward this book covers all of what might be called the cultural aspects of baseball as opposed to the number rich statistical information so widely available elsewhere biographical sketches of all hall of fame players owners executives and umpires as well as many of the sportswriters and broadcasters who have won the spink and frick awards join entries for teams owners commissioners and league presidents advertising agents drafts illegal substances minor leagues oldest players perfect games retired uniform numbers superstitions tripleheaders and youngest players are among the thousands of entries herein most entries open with a topical quote and conclude with a brief bibliography of sources for further research the whole work is exhaustively indexed and includes 119 photographs the communist economic challenge 1965 examines the substantial industrial development in the soviet union and its european satellites and china looking at khrushchev s boast that by 1970 the ussr s industrial output would surpass that of the usa the book analyses the communist record and evaluates the reality of the soviet claims that its growth was a mark of the inherent superiority of its economic system over capitalism this book focuses on the status quo and current trends concerning ethnic issues in china and seeks to promote the equitable and harmonious development of chinese and other nationalities around the world drawing on representative empirical studies and case studies it describes the spatial structure and evolution of china s populace and analyzes the distribution of and legislation on its spatial development which has been conducive to the scientific formulation of national population policies after assessing the development of china s populace the book analyzes the future prospects with regard to achieving the goal of a prosperous society and balancing the population in a comprehensive way puts forward some constructive suggestions on the modernization of the populace and constructs a new knowledge system for national development with chinese characteristics the book combines qualitative and quantitative analysis and employs empirical speculative comparative and comprehensive methods to make full use of modern science and technology so as to promote ethnological research into a broader development path its goal is to objectively evaluate the development of the chinese populace and provide objective facts and data to support those readers who are interested in its nature and evolution an account of the history structure and operation of the first and second banks of the united states this study examines how the banks performed as national and central institutions and what happened to the economy when the charter of the second bank was allowed to expire in 1836 historians have paid little recent attention to the early history of central banking in the united states and many americans believe that the federal reserve created in 1913 was our first central bank the economic crisis during the american revolution actually

led to the founding of a national bank called the bank of north america during the period of confederation although it became a private bank before the constitution was ratified in 1788 it proved to be such a success that in 1791 alexander hamilton the first secretary of the treasury was able to convince president washington that a similar bank should be established while the first bank of the united states performed well during its tenure its charter was allowed to lapse in 1811 a second bank of the united states was created five years later in 1816 and it prospered under the leadership of its third president nicholas biddle from 1823 to 1830 when central banking was practiced this success ended with the 1828 election of andrew jackson who refused to recharter the bank and withdrew the government s funds in 1833 severely weakened the bank continued but its charter finally expired in 1836 much to biddle s dismay this is the most comprehensive textbook on school library administration available now updated to include the latest standards and address new technologies this reference text provides a complete instructional overview of the workings of the library media center from the basics of administration budgeting facilities management organization selection of materials and staffing to explanations on how to promote information literacy and the value of digital tools like blogs wikis and podcasting since the publication of the fourth edition of administering the school library media center in 2004 many changes have altered the landscape of school library administration the implementation of nclb legislation and the revision of aasl standards just to mention two the book is divided into 14 chapters each devoted to a major topic in school library media management this latest edition gives media specialists a roadmap for designing a school library that is functional and intellectually stimulating while leading sources provide guidance for further research designing and writing a real time streaming publication with apache apex about this book get a clear practical approach to real time data processing program apache apex streaming applications this book shows you apex integration with the open source big data ecosystem who this book is for this book assumes knowledge of application development with java and familiarity with distributed systems familiarity with other real time streaming frameworks is not required but some practical experience with other big data processing utilities might be helpful what you will learn put together a functioning apex application from scratch scale an apex application and configure it for optimal performance understand how to deal with failures via the fault tolerance features of the platform use apex via other frameworks such as beam understand the devops implications of deploying apex in detail apache apex is a next generation stream processing framework designed to operate on data at large scale with minimum latency maximum reliability and strict correctness guarantees half of the book consists of apex applications showing you key aspects of data processing pipelines such as connectors for sources and sinks and common data transformations the other half of the book is evenly split into explaining the apex framework and tuning testing and scaling apex applications much of our economic world depends on growing streams of data such as social media feeds financial records data from mobile devices sensors and machines the internet of things iot the projects in the book show how to process such streams to gain valuable timely and actionable insights traditional use cases such as etl that currently consume a significant chunk of data engineering resources are also covered the final chapter shows you future possibilities emerging in the streaming space and how apache apex can contribute to it style and approach this book is divided into two major parts first it explains what apex is what its relevant parts are and how to write well built apex applications the second part is entirely application driven walking you through apex applications of increasing complexity the southern appalachian region is the largest american problem area an area whose participation in the economic growth of the nation has not been sufficient to relieve the chronic poverty of its people the existence of the problem was recognized a generation ago but in the past decade the resistance of such areas

to economic advance has acquired a more urgent significance in american thought in 1958 a group of scholars undertook to make a new survey of the southern appalachian region aided by grants from the ford foundation ultimately amounting to 250 000 they set out to analyze the direction and extent of the changes which had taken place since the last survey in 1935 to define the problem in terms of the present situation and if possible to arrive at recommendations for action which might enable the leaders of the region and the nation to attack the problem with practical measures in this volume are presented their comprehensive reports on the region s population its economy its institutions and its culture the problems defined by this survey are a challenge to the whole nation for the consequences of success or failure in solving them will not be limited to the southern appalachian region this book provides an assessment of the megatrends that are reshaping the emerging markets landscape with developing countries already accounting for 40 of world gdp emerging markets consumption growth will be an increasingly important growth engine for the world economy over the next two decades however emerging markets in many parts of asia africa the middle east and latin america are still facing tremendous economic challenges such as poverty inequality weak governance and inadequate infrastructure the developed nations are no longer insulated from the economic shockwaves impacting developing countries as globalisation and economic integration have also amplified the transmission effects to the west through immigration flows cross border crime and the proliferation of international terrorism emerging markets megatrends is an essential read for government policymakers corporate executives international investors and analysts wishing to understand more about the economic drivers and long term outlook for emerging markets this book aims to highlight science education in countries along the belt and road it consists of 30 chapters divided into three main parts namely arab and african countries asian countries and european countries we invited science education experts from 29 belt and road countries to introduce the current status of science education in their countries and the new requirements with the rapid evolution of information technology the major contributions of this book include 1 provide the current status of science education in countries along the belt and road as well as the requirement for developing and improving science education in these countries 2 discuss new insights of science education in future years 3 inspire stakeholders to take effective initiatives to develop science education in countries along the belt and road agriculture mining and related rural industries have been central to the development of australia s economy this book details the role that the australian government has played in the making of rural and regional australia particularly since world war ii the book reviews these policies and evaluates them with regards the commitments undertaken by the government to contribute towards vibrant rural communities policy areas addressed include agriculture water education welfare and population natural resource management resource extraction indigenous and affairs localism rural research and regional innovation youth affairs and the devolution of regional governance overall two distinct policy strategies can be observed one wherein the government saw its role as part of the entrepreneurial state and a sector wherein government has increasingly taken itself out of industry development leaving this role to the market having considered these strategies and their impacts the book concludes that policy over the past 40 years has not in fact contributed to a more vibrant prosperous rural and regional australia rural and regional futures concludes with several chapters looking to the future one chapter explores what the role of the state can be within a social market economy while the final chapter gives consideration to the initial steps rural communities will need to take to begin the process of revitalisation while these materials present as a case study of developments in australia the policy shift from the government as entrepreneur to a focus on markets is an international one and as such the insights offered by this book will have wide appeal benefits of the book which

distinguish it from others complete coverage of ncert textbook latest edition useful for upsc state pscs and other central state govt competitive exams chapter wise summary to cover all important points chapter wise ncert based mcqs with difficulty levels moderate state pscs and other government exams advanced upsc and previous years questions of all relevant exams upsc state psc and other government exams 100 detailed solutions questions exactly as per exam pattern lasting from 1861 to 1865 the civil war pitted brother against brother and resulted in the deaths of well over 600 000 soldiers this encyclopedia provides information about a variety of topics related to the war and its aftermath including political issues generals battles and campaigns armies weapons and ammunition naval vessels medical treatments and aspects of daily life in the military and on the home front methodological know how has become one of the key qualifications in contemporary linguistics which has a strong empirical focus containing 23 chapters each devoted to a different research method this volume brings together the expertise and insight of a range of established practitioners the chapters are arranged in three parts devoted to three different stages of empirical research data collection analysis and evaluation in addition to detailed step by step introductions and illustrative case studies focusing on variation and change in english each chapter addresses the strengths and weaknesses of the methodology and concludes with suggestions for further reading this systematic state of the art survey is ideal for both novice researchers and professionals interested in extending their methodological repertoires the book also has a companion website which provides readers with further information links resources demonstrations exercises and case studies related to each chapter this book is the first to explore the largely unknown world of rural crime and justice in post emancipation imperial russia drawing upon previously untapped provincial archives and a wealth of other neglected primary material stephen p frank offers a major reassessment of the interactions between peasantry and the state in the decades leading up to world war i viewing crime and punishment as contested metaphors about social order his revisionist study documents the varied understandings of criminality and justice that underlay deep conflicts in russian society and it contrasts official and elite representations of rural criminality and of peasants with the realities of everyday crime at the village level in soviet economy and the war the author presents a concise factual record of soviet economic developments during a short period this book outlines the economic planning and performance that accompanied the military training and preparation to meet the onset of nazism to some extent complementary to dobb s soviet economy the war the author offers detailed studies of a few special aspects of the soviet economic system
