small states in and outside the european union offers a broad overview of the small states problematic in europe it touches upon definition issues history security policy neutrality eu institutional aspects and also includes contributors from central and eastern european countries it presents a thorough analysis of different scenarios for eu institutional reform and their repercussions on the influence of small member states the comparative results are visualized in tables the work contains several contributions from practitioners who give insight into policy games and issues of national sensitivity not usually covered by purely scholarly publications the european environment has changed dramatically through the processes of regional integration and rising interdependence relations between european states both inside and outside the eu are governed as never before by rules norms and fixed procedures the book investigates the consequences of these developments on the foreign and security policy of small states academics and professionals from austria denmark finland ireland lithuania luxembourg slovenia sweden and switzerland as well as from the european commission and the council of ministers elaborate on these issues institutional regulations and traditional power politics as well as the foreign and security policy traditions of the states concerned including the question of neutrality are investigated in addition the book identifies the main interests of small states in today s europe and offers an overview of different strategies these states apply in the realm of foreign and security policy the book is interesting for the case studies it offers as well as for the reflections it contains regarding fundamental questions of the essence of statehood in today s europe integrating the study of individual european nation states within the framework of the european union this unique new text is essentially two books in one a book on the eu and a comparative introduction to european politics this text provides more value to students by combining two texts in one but engages student interest and facilitates learning through a variety of useful features role playing exercises encourage participation and test students critical thinking skills while an emphasis on the people behind the politics humanizes material and provides lively insights into contemporary european politics and society to ensure student understanding there is extensive material comparing and contrasting eu states to one another and to the united states a thorough glossary at the end of the book and an abundance of examples tables charts and graphs to illustrate and extend the discussions the issue of competence division is of fundamental importance as it reflects the power bargain struck between the member states and their union determining the limits of the authority of the eu as well as the limits of the authority of the member states it defines the nature of the eu as a polity as well as the identity of the member states after over six years since the entry into force of the lisbon treaty it is high time to take stock of whether the reforms that were adopted to make the union s system of division of competences between the eu member states clearer more coherent and better at containing european integration have been successful this book asks whether the competence problem has finally been solved given the fundamental importance of this question this publication will be of interest to a wide audience from constitutional and substantive eu law scholars to practitioners in the eu institutions and eu legal practice more generally france and the netherlands have said no to the european constitutional treaty in addition to domestic political motives contradictory fears were in play some thought the treaty brought with it too much europe some thought it did not bring enough europe others particularly in the netherlands were protesting against the supposed cost of europe yet others thought that the european union s enlargement has gone ahead much too quickly what is the next step the belgian prime minister guy verhofstadt does not mince his words he wishes to create a united states of europe with all member states of the european union participating if possible with a group of pioneers if necessary his book is required reading for anyone who cares about europe the relationship between the members states of the european union and the united states have been strained in recent years as a result of shifts in u s global strategy as well as important changes in the international economic political and security environment the tensions in us eu relations the growing challenges to both us and eu interests represented by a resurgent russian federation as well as the islamic world and dramatic shifts in the economic and political capabilities of countries from east asia to latin america all contribute to

a much more complex international environment than that envisaged in the wake of the end of the cold war the current volume will examine the implications of these changes for the future of international politics table of contents preface contributors introduction the united states and europe in a changing world by roger e kanet part i the us and eu perspectives on the changing world order ch 1 international order the american way selective multilateralism and european consternation by joel westra ch 2 the bush ii administration s policy toward europe from unilateralism to transformational diplomacy and beyond by gabriela marin thornton ch 3 will the coalition of democratic states and peoples survive afghanistan by edward a kolodziej ch 4 contributions of nato and the eu to european and global security governance by roberto domnguez rivera ch 5 the osce role in european and transatlantic security does it have a future by p terrence hopmann part ii the eu impact on turkish political developments ch 6 the influence of the european union in the making of turkish foreign policy by zlem terzi ch 7 turkey between the transatlantic partnership by glnur aybet part iii asia and the european union ch 8 the european union and india by amit das gupta ch 9 the everlasting love for comparison reflections on the eu s and asean s integration by lay hwee yeo ch 10 china european relations emerging new modus operandi by mingjiang li part iv latin america the united states and future integration ch 11 regional security and integration in south america what unasur could learn from the osce and the shanghai cooperation organization by marco cepik ch 12 building trust in latin america by monica herz conclusion by roger e kanet index this book offers a selection of materials that enable a better understanding of some of the most important changes that would be introduced by the treaty establishing a constitution for europe in the eu legal and political system it also helps to assess the need for the reforms embedded in the constitutional treaty as well as the quality of the formulations agreed upon by the signatory member states the book includes excerpts of the european convention s work selected statutory and constitutional provisions of the member states and also related passages from pertinent court decisions from both european courts as well as member states constitutional courts institutional and doctrinal analyses and relevant excerpts from the constitutional treaty itself are also included many of these documents directly relate to the provisions of the constitutional treaty while the others although not directly related are nevertheless relevant to the debate surrounding it the european constitution by two of the best experts on the constitution for europe will be of great interest to researchers and teachers in the fields of european law and european politics and also to policy makers in european affairs this book offers a comprehensive analysis of the legal and political challenges surrounding the eu accession of the baltic states it examines the impact of eu enlargement on relations with russia and on the constitutional development of the countries concerned in europe and around the world social policies and welfare services have faced increasing pressure in recent years as a result of political economic and social changes just as europe was a leader in the development of the welfare state and the supportive structures of corporatist politics from the 1920s onward europe in particular has experienced stresses from globalization and striking innovation in welfare policies while debates in the united kingdom germany and france often attract wide international attention smaller european countries belgium denmark austria or finland are often overlooked this volume seeks to correct this unfortunate oversight as these smaller countries serve as models for reform undertaking experiments that only later gain the attention of stymied reformers in the larger countries this book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the west and russia the ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the soviet union namely the security dynamics of the border states of eastern europe and the black sea twenty five years after the collapse of the soviet union a strong russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at yalta that conflict which hotted up over the ukraine was soon being played out over and in the air space over syria and turkey while the border states themselves are likely to be drawn into the european refugee crisis and have the potential after the 2015 paris atrocities to be breeding grounds for international terrorists this groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the east west divide the must read summary of t r reid s book the united states of europe the new superpower and the end of american supremacy this complete summary of the united states of europe by t r reid a prominent american reporter and author presents his examination of the rise of the european union which he believes is one of the most important geopolitical events of our time he argues that the eu is becoming a superpower capable of rivaling the us on every measure except the military therefore

cooperation and diplomacy will be necessary between the two groups added value of this summary save time understand the rise of the eu and its implications for america expand your knowledge of politics and international relations to learn more read the united states of europe and discover what the rise of the eu means for the us the most recent eu enlargements have considerably increased the number of small member states in the eu 27 19 countries have fewer votes in the council of ministers than the eu average these small states face a series of size related disadvantages in day to day eu negotiations against this backdrop the book asks are some small states better at coping with structural disadvantages than others how active are small states in participating in day to day eu negotiations and why do some states use negotiation strategies more frequently than others under which conditions are the different negotiation strategies effective and when can small states punch above their weight based on more than 100 interviews with policy makers and an analysis of a unique database on the negotiation activities of eu member states this book explains how active participation is essential for the shaping success of small states and shows that small states are more influential with persuasion based rather than bargaining based strategies two case studies on the pesticides and the spirit drinks regulations further reveal that persuasion strategies are especially effective if the arguments match the nature of the issue at stake and resonate well with prior beliefs of addressees no other study comprehensively analyzes small states in a comparative perspective examines their activity levels in eu negotiations and outlines which conditions are needed for the effectiveness of a broad range of strategies this is an indispensable resource for students and researchers interested in how and under which conditions small states can influence policies in negotiations beyond the nation state this comprehensive reference guide provides an in depth look at the treaties that impacted the relationship between europe and the united states throughout history from the treaty of tordesillas to the vienna convention on the law of treaties readers will gain a broad understanding of the intricate web of international agreements that have shaped the course of world events this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant europe s divergence from america on issues like war with iraq and trade competition is becoming increasingly ill tempered with the euro flourishing and a european defence force a real prospect europe is now a recognizable political entity on the world scene a population of over 300 million and the world s largest economy have already turned the eu into a super power but it is now on the verge of being a super state haseler examines why the new european super state has emerged how it will inevitably rival the usa and how the americans are reacting to this new world player super state explores what this new eu super state means for the citizens of europe and their attitudes to america looking specifically at how eurosceptic britain will fit into this new structure bloomsbury publishing this book presents a systematic in depth and comparative analysis of the role of the eu in the process of international state building and is one of the first comprehensive books to do so at an international level taking the case of kosovo it examines the eu s role in the birth of a state in comparison to other international actors from 1999 to 2008 and moves on to analyse the eu s role in norm diffusion in the post independence period 2008 2020 throughout the book the author draws parallel analyses with broader debates and scholarly literature regarding the eu s role as a state builder or norm diffuser combining a liberal peace thesis framework with the normative power europe npe approach it analyses how successful the eu and other international actors were in the diffusion of tangible and normative impacts in the process of state building in kosovo 1999 2008 along with the eu s diffusion of normative impact from 2008 to 2020 finally it scrutinises the role of the eu and other international actors in the processes of state building through transference tools funding and overt tools political role this book will be of key interest to scholars and students of eu foreign policy european politics peace and conflict studies the western balkans state building international organisations and more broadly to international relations does the development of new technology cause an increase in the level of surveillance used by central government is the growth in surveillance merely a reaction to terrorism or a solution to crime control are there more structural roots for the increase in surveillance this book attempts to find some answers to these questions by examining how governments have increased their use of surveillance technology focusing on a range of countries in europe and beyond this

book demonstrates how government penetration into private citizens lives was developing years before the war on terrorism it also aims to answer the question of whether central government actually has penetrated ever deeper into the lives of private citizens in various countries inside and outside of europe and whether citizens are protected against it or have fought back the main focus of the volume is on how surveillance has shaped the relationship between the citizen and the state the contributors and editors of the volume look into the question of how central government came to intrude on citizens private lives from two perspectives identification card systems and surveillance in post authoritarian societies their aim is to present the heterogeneity of the european historical surveillance past in the hope that this might shed light on current trends essential reading for criminologists sociologists and political scientists alike this book provides some much needed historical context on a highly topical issue

The United States of Europe 1994

small states in and outside the european union offers a broad overview of the small states problematic in europe it touches upon definition issues history security policy neutrality eu institutional aspects and also includes contributors from central and eastern european countries it presents a thorough analysis of different scenarios for eu institutional reform and their repercussions on the influence of small member states the comparative results are visualized in tables the work contains several contributions from practitioners who give insight into policy games and issues of national sensitivity not usually covered by purely scholarly publications the european environment has changed dramatically through the processes of regional integration and rising interdependence relations between european states both inside and outside the eu are governed as never before by rules norms and fixed procedures the book investigates the consequences of these developments on the foreign and security policy of small states academics and professionals from austria denmark finland ireland lithuania luxembourg slovenia sweden and switzerland as well as from the european commission and the council of ministers elaborate on these issues institutional regulations and traditional power politics as well as the foreign and security policy traditions of the states concerned including the question of neutrality are investigated in addition the book identifies the main interests of small states in today s europe and offers an overview of different strategies these states apply in the realm of foreign and security policy the book is interesting for the case studies it offers as well as for the reflections it contains regarding fundamental questions of the essence of statehood in today s europe

Recognizing 50 Years of Relations Between the United States Government and the European Union 2004

integrating the study of individual european nation states within the framework of the european union this unique new text is essentially two books in one a book on the eu and a comparative introduction to european politics this text provides more value to students by combining two texts in one but engages student interest and facilitates learning through a variety of useful features role playing exercises encourage participation and test students critical thinking skills while an emphasis on the people behind the politics humanizes material and provides lively insights into contemporary european politics and society to ensure student understanding there is extensive material comparing and contrasting eu states to one another and to the united states a thorough glossary at the end of the book and an abundance of examples tables charts and graphs to illustrate and extend the discussions

Developments in Europe, July 1982 1982

the issue of competence division is of fundamental importance as it reflects the power bargain struck between the member states and their union determining the limits of the authority of the eu as well as the limits of the authority of the member states it defines the nature of the eu as a polity as well as the identity of the member states after over six years since the entry into force of the lisbon treaty it is high time to take stock of whether the reforms that were adopted to make the union s system of division of competences between the eu member states clearer more coherent and better at containing european integration have been successful this book asks whether the competence problem has finally been solved given the fundamental importance of this question this publication will be of interest to a wide audience from constitutional and substantive eu law scholars to practitioners in the eu institutions and eu legal practice more generally

United States Priorities in Europe 2003

france and the netherlands have said no to the european constitutional treaty in addition to domestic political motives contradictory fears were in play some thought the treaty brought with it too much europe some thought it did not bring enough europe others particularly in the netherlands were protesting against the supposed cost of europe yet others thought that the european union s enlargement has gone ahead much too quickly what is the next step the belgian prime minister guy verhofstadt does not mince his words he wishes to create a united states of europe with all member states of the european union participating if possible with a group of pioneers if necessary his book is required reading for anyone who cares about europe

The Union of Europe 1952

the relationship between the members states of the european union and the united states have been strained in recent years as a result of shifts in u s global strategy as well as important changes in the international economic political and security environment the tensions in us eu relations the growing challenges to both us and eu interests represented by a resurgent russian federation as well as the islamic world and dramatic shifts in the economic and political capabilities of countries from east asia to latin america all contribute to a much more complex international environment than that envisaged in the wake of the end of the cold war the current volume will examine the implications of these changes for the future of international politics table of contents preface contributors introduction the united states and europe in a changing world by roger e kanet part i the us and eu perspectives on the changing world order ch 1 international order the american way selective multilateralism and european consternation by joel westra ch 2 the bush ii administration s policy toward europe from unilateralism to transformational diplomacy and beyond by gabriela marin thornton ch 3 will the coalition of democratic states and peoples survive afghanistan by edward a kolodziej ch 4 contributions of nato and the eu to european and global security governance by roberto domnguez rivera ch 5 the osce role in european and transatlantic security does it have a future by p terrence hopmann part ii the eu impact on turkish political developments ch 6 the influence of the european union in the making of turkish foreign policy by zlem terzi ch 7 turkey between the transatlantic partnership by glnur aybet part iii asia and the european union ch 8 the european union and india by amit das gupta ch 9 the everlasting love for comparison reflections on the eu s and asean s integration by lay hwee yeo ch 10 china european relations emerging new modus operandi by mingjiang li part iv latin america the united states and future integration ch 11 regional security and integration in south america what unasur could learn from the osce and the shanghai cooperation organization by marco cepik ch 12 building trust in latin america by monica herz conclusion by roger e kanet index
