□□□ 2008 official tourism websites a discourse analysis perspective investigates the construction and promotion of identity of tourist locales by the designers of the official websites for destinations such as santiago de compostela spain the baltic states of latvia and estonia new orleans louisiana and gary indiana myanmar burma us sports halls of fame and in recognizing the influence and popularity of such sites three websites parodying the imaginary nations of phaic tan molvania and san sombrero analysis addresses how tourism websites foster social action and therefore contribute to the re construction of nations and other communities by variably fostering re imagination rebirth renaissance promotion and caution and patriotism recognizing that tourism texts can function to both construct and embody identity for their respective locales this investigation employs critical discourse analysis multimodal discourse analysis and visual semiotic analysis in the investigation of web texts and images

Official Tourism Websites 2010-03-24 this book aims to make a theoretical empirical and prescriptive contribution to the contemporary study of policy transfer in the first regard it observes that despite bold claims to the contrary see dolowitz and marsh 1996 and evans ed 2010 most studies of policy transfer are characterised by their mono cultural understanding of the process of policy oriented learning reflected in an obsession with the destination of transfer rather than its original policy setting or settings this betrays an absence of strong comparative investigation of the process of learning moreover existing approaches to the study of policy transfer networks the process of policy learning are limited by their narrow epistemological perspectives as in the main they tend to lend undue focus on actors ideas interests or structure following the work of marsh and smith on policy networks 2000 this book contends that these elements cannot be separately analyzed it therefore advances an interactive model of policy transfer networks that investigates the process of learning through three interactive dimensions between structure and agents network and context and network and outcome the book s second main contribution the presentation of original case study explorations of the role of policy transfer in facilitating the rise of the quasi competition state the book contends that policy transfer has become a key policy instrument in the process of transition from a command to a market socialist economy and latterly to what may be termed a quasi competition state indeed in order to meet the perceived imperatives of state transformation the reform and open door policy has been featured by a broad range of processes of policy learning it is however beyond the scope of this book to present a comprehensive description and explanation of this complex and multi faceted reform process rather the aim of this account is to provide an examination of certain processes of policy transfer which are broadly indicative of the dynamics of change underpinning the incremental process of reform the third and final contribution of this book lies in its identification of the ingredients of rational policy transfer which can hopefully help guide future chinese policy makers to more progressive policy outcomes

Theory and Practice of Policy Transfer in a Changing China 2016-03-31 with the ascension of a new emperor and the dawn of the reiwa era kenneth j ruoff has expanded upon and updated the people s emperor his study of the monarchy s role as a political societal and cultural institution in contemporary japan many japanese continue to define the nation s identity through the imperial house making it a window into japan s postwar history ruoff begins by examining the reform of the monarchy during the u s occupation and then turns to its evolution since the japanese regained the power to shape it to understand the monarchy s function in contemporary japan the author analyzes issues such as the role of individual emperors in shaping the institution the intersection of the monarchy with politics the emperor s and the nation s responsibility for the war nationalistic movements in support of the monarchy and the remaking of the once sacrosanct throne into a people s imperial house embedded in the postwar culture of democracy finally ruoff examines recent developments including the abdication of emperor akihito and the heir crisis which have brought to the forefront the fragility of the imperial line under the current legal system leading to calls for reform

release of book critical of chinese communist party by robert fife that said it all the hands of the chinese communist party were going on the offence the 48 group club a china friendly group of former uk ambassadors and prime ministers were embarrassed by their connections to a club founded by key members of the chinese communist party of britain who s chair stephen perry suggested that china s approach to world order and rule was superior to democracy and the uk should embrace them asked if he believed the lawsuit was an effort by the chinese government to stop the publication of his book mr hamilton said i have no evidence of that although it should be noted that the chinese government has used lawfare in the past lawfare is the use of legal action as part of a campaign against a target governments around the world are in the early stages of a repositioning of power as china rises and the united states is drawn into direct competition however some are beginning to wonder whether for all of the economic benefits engaging with china carries unseen dangers the chinese communist party is now determined to reshape the world in its image the party is not interested in democracy it divides the world into those who can be won over and enemies they have already lured many leaders to their corner others are weighing up a devil s bargain through its exercise of sharp power the party is weakening global institutions aggressively targeting individual corporations and threatening freedom of expression from the arts to academia at the same time security services are increasingly worried about incursions into our communications infrastructure indeed the vaunted great firewall is a temporary measure only necessary until the party has transformed the global conversation in december 2019 the ccp s obsession with social control led it to suppress expert warnings about the coronavirus outbreak in wuhan most alarming for the west was the active collaboration of the who in spreading the ccp s version of events it was a shocking example of the widespread co optation of global institutions by the ccp as described in hidden hand as soon as beijing thought it had the virus under control it began a global propaganda blitz presenting china s authoritarian system as a model for the rest of the world western media and pundits soon began echoing the party line hidden hand is a detailed and devastating expose of chinese communist party influence in the west including canada it could not arrive at a better time in canada with relations between ottawa and beijing reaching breaking point after two years of mounting tension china s bullying behaviour and the mobilising of people loyal to the chinese communist party on the streets of canada s cities has caused deep disquiet among canadians but the government seems paralyzed hidden hand shows how canada s political business academic and cultural elites have over many years been co opted by the chinese communist party and its agencies they are confused about what is in canada s national interests and frequently do beijing s bidding hidden hand shows how the chinese communist party represents a profound threat to western democracy it s vital reading for canadians who want to understand what is really happening and points to a way of carving out a new diplomatic course with china but the question remains does the government have the will to stand up to beijing and its proxies in canada or is it too late
