Empires on the Waterfront

2020-05-11

empires on the waterfront offers a new spatial framework for understanding japan s extended transition into the modern world of nation states this study examines a largely unacknowledged system of special trading ports that operated under full japanese jurisdiction in the shadow of the better known treaty ports by allowing japan to circumvent conditions imposed on treaty ports the special trading ports were key to achieving autonomy and regional power catherine l phipps uses an overtly geographic approach to demonstrate that the establishment of japan s maritime networks depended on initiatives made and carried out on multiple geographical scales global national and local the story of the special trading ports unfolds in these three dimensions through an in depth assessment of the port of moji in northern kyushu empires on the waterfront recasts the rise of japan s own empire as a process deeply embedded in the complicated system of maritime relations in east asia during the pivotal second half of the nineteenth century

Life in Treaty Port China and Japan

2018-03-30

this edited volume moves beyond the traditional examination of the treaty ports of china and japan as places of cultural interaction it moves beyond the bund presenting instead the history of material culture the everyday life of the residents of the treaty ports beyond the symbology of shanghai s waterfront bringing for the first time together scholars of china and japan museum curators legal economic and architectural historians it studies the treaty ports not only as sites of cultural exchange but also as sites of social contestation accommodation and mobility covering topics as varied as day to day life itself such as family property and law health and welfare travel visual culture and memory the call of this volume is to peel the multiple layers of the encounter between east and west in the treaty ports of china and japan

Bargaining with the State from Afar

2001-03-29

in the early 1990s when organizations representing the 2.6 million u.s. nationals living abroad appealed to congress for their own non-voting representative the response of one senator was to dismiss these moans of the mink-swathed americans abroad however the image of a life of luxury abroad is usually a harsher reality complicated by income taxes military duty and legal jurisdiction what exactly is the obligation of a state toward citizens who live outside its borders bargaining with the state from afar traces the relationship between the united states federal government and sojourning americans living in the colonial enclaves of pre world war ii china this group of americans was not subject to chinese law but rather to an amalgam of laws borrowed from the district of columbia and other territorial codes as well as to local ordinances enacted by foreigners themselves scully explores u.s. government efforts to police this anomalous zone in the american policy and places the struggle between federal officials and sojourning u.s. nationals in the larger context of changing international law and modern citizenship regimes she argues that the american experience with extraterritorial justice in china offers an important new vantage point from which to examine a singular area in the history of modern states this case study of u.s. consular jurisdiction reveals the legal political and cultural process through which modern states have struggled to govern citizens outside their borders scully's examination of the u.s. court for china is one of the first serious analysis of this anomalous institution

Reports on Trade at the Treaty Ports for the Years 1865-1881

1881

this is the first in depth study of the early trial and error experiences of contracting between japanese and western merchants trading in the japanese treaty ports in the eighteen year period immediately following the opening of the ports in 1859 fundamental to the equation were the inevitable east west cultural and legal ambiguities that impacted on the traders the learning curve for both westerners and japanese regarding the nature and application of western contracting law was predictably difficult tortuous and open to constant misunderstanding nevertheless it was within such a framework that the principal benchmarks for trade with japan were set down and which in essence have lasted to the present day

Reports on Trade at the Treaty Ports

1868

looking modern east asian visual culture from treaty ports to world war ii examines multiple dimensions of visual modernity in east asia from the nineteenth century through the early decades of the twentieth the papers were drawn from two symposia held at the center for the art of east asia in the department of art history the university of chicago which brought out important themes in east asian art and visual culture in the nineteenth and twentieth centuries including photography cinema and fashion changing roles of women commercialization of art and the impact of western cultures they undertook a broad interpretation of visual modernity to include visual dimensions of human endeavor traditionally seen as outside of artistic production in order to encourage exploration of new and understudied materials across disciplinary boundaries this volume not only provides important background in the growth of modern visual culture in east asia but also is a collection of seminal research on specific topics that have a broad impact upon present day visual arts of china and japan publisher's description

1867

this book presents intimate engaging and largely untold portraits of western lives and livelihoods in japanese and chinese treaty ports as well as in the british colonies of hong kong australia and new zealand during the 19th century it does so by examining how westerners chronicled their overseas lives in personal letters diplomatic dispatches business records and academic papers by utilizing these rich but often overlooked sources chronicling westerners in nineteenth century east asia presents new insights into the pace and challenges of daily life especially in the japanese treaty ports of nagasaki and yokohama but also in shanghai and hong kong in the process the volume stresses the connectivities between its subjects as westerners lives intersected and as they moved between japanese and chinese port cities contributors based in the usa japan the uk new zealand and switzerland reveal the various commercial maritime and imperial connections linked in surprising ways to westerners in east asia portrayed here which shaped colonial development in australia and new zealand through a broad investigation of westerners recording their lives the book re examines wider histories of the so called openings of china and japan in the 1850s and 1860s as

well as how westerners sought to make sense of these events and to narrate their place within them finally the volume considers how flows of people capital commerce and communications not only cut across the histories of distinct treaty ports in japan and china but also shows their implications for empire and exchange beyond east asia including australia new zealand and the 19th century maritime world

The Treaty Ports of China and Japan

2012-04-26

japan s modern international history began in 1858 with the signing of the unequal commercial treaty with the us over the next 15 years japanese diplomacy was reshaped in response to the western imperialist challenge this book explains the emergence of modern japan through early treaty relations
