the book provides a framework for the processes of
course development which any teacher can use in
developing his or her own courses each chapter
highlights a different aspect of the framework based
on the particular teacher s approach and examines
how the teacher has utilized or departed from the
framework in meeting the challenges of a particular
situation each narrative is followed by a set of tasks
and discussion questions an annotated bibliography is
also included

Advances in Second/Foreign Language Acquisition

2005-05-05 studies of the history of international
relations traditionally have focused on the decisions
made by those at the highest levels of government in
more recent years scholars have expanded their
attention to cover economic cultural or social
interactions among nations what has remained largely
ignored however is the impact of an increasingly
interdependent world upon the environment and
conversely how environmental concerns have affected
the ecology social relationships economics and politics
at national regional and global levels the environment
and international history fills this gap looking at the
interrelationship between international politics and the
environment using a transnational and interdisciplinary
approach this book examines how imperialism war and
a divergence of interests between the developed and
underdeveloped world all have had implications for
plants animals and humans worldwide
