audit effectiveness dr kamil omoteso examines how information technology is changing the landscape for the audit profession as it tools and techniques continue to be developed for auditors in the pursuit of quality efficiency and effectiveness in addition to shedding light on practical subjects such as audit automation continuous online auditing and computer auditing this book introduces some theory that helps explain the motivation for the use of new tools and techniques and assists understanding of their impact on the quality of audit judgment the book proposes a three layered model an integration of contingency socio technical systems and structuration theories for a comprehensive understanding of it s impact on audit the model

advocates that the use of it in audits is a function of certain contingent factors that determine an optimal mix of human skills and technological capabilities which would lead to changes in the nature of auditors roles and outputs and audit organisations structures dr omoteso puts forward an audit automation maturity model that can help audit firms departments to understand their current level of it integration and how to systematically enhance their capabilities with a view to meeting modern it challenges taking them from the position of mere followers of technology to that of effective leaders of technology audit effectiveness is for anyone practising in auditing or accounting automation as well as for those with an academic or research interest in the challenges posed by technological advances for auditors in particular and for managers in general research on professional responsibility and ethics in accounting is devoted to publishing high quality research and cases that focus on the professional responsibilities of accountants and how they deal with the ethical issues they face presents an empirical research in accounting theory this book includes content that crosses into the fields of applied psychology sociology management science and economics

theory in part validated within an international accounting organization this study is the first to provide a more profound in depth and contextualized analysis and understanding of the effect of cross national cultural differences on the behavior of professionals in general and that of auditors in particular
