The Teaching and Learning Challenges of 21st-Century Higher Education 2023-07-11

university presidents are expected to draw upon their experiences to draft a book suggesting possible futures for higher education since my term of office ended in 1996 as the new century approached it was natural to label this assignment as a university for the 21st century a book that was awarded the alice beaman award of case the council on advancement and support of education in 2001 although this effort was heavily influenced by my experience in serving the university of michigan as dean provost and president during the 1980s and 1990s i attempted to paint a broader picture of american higher education write large of course universities have a remarkable constancy in roles such as teaching and scholarship in organizations such as schools colleges and departments and in cultures such as academic freedom and tenure indeed as clark kerr has noted in his famous quote

Goals and Purposes of Higher Education in the 21st Century 1996 beyond free college outlines an audacious national agenda consistent with but far more comprehensive than the current free college movement that builds on the best of us higher education's populist history such as the gi bill and the community college transfer function the authors align a wide constellation of higher education trends online learning prior learning assessment competency based learning high school college credit with a rapidly shifting student transfer environment that privileges college credit as the pivotal educational catalyst to boost access and completion the book's agenda seeks greater productive investment in postsecondary education by privileging a single metric lower cost per degree granted as the animating driver of a transfer pathway that will fulfill the potential of its historical progressive innovators beyond free college's goal is as simple as it is urgent to galvanize higher education advocates in an effort to reorganize reorient and reignite the transfer function to serve the needs of a neotraditional student population that now constitutes the majority of college goers in america and in ways that advance completion not just access to higher education

A University for the 21st Century 20 Years Later 2017 there is increasing interest in the asian arena both as a home for the delivery of international higher education and as a breeding ground for a new brand of sustainable domestic and international growth academics are increasingly turning to asia and asian education in order to better understand and predict the emerging trends of global education and this book will serve to provide a forum for debate of this nature the book provides an insight into the interplay of asian and european education identifies the key areas for further development and firmly grounds the approach as one of conversation and dialogue rather than one sided dictation it also highlights the critical issues within the development of international education discusses the value and

challenges of existing the practices as a mechanism to respond to the emerging asian needs and provides an insight into the future direction of education in the asian century
