**I Am that** 1973 discourses of a hindu religious leader of the navnath sampradaya

**I Am that** 1973 this collection of the timeless teachings of one of the greatest sages of india sri nisargadatta maharaj is a testament to the uniqueness of the seer s life and work and is regarded by many as a modern spiritual classic i am that first published in 1973 continues to draw new audiences and to enlighten seekers anxious for self realization sri nisargadatta maharaj was a teacher who did not propound any ideology or religion but gently unwrapped the mystery of the self his message was simple direct and sublime i am that preserves his dialogs with the followers who came from around the world seeking guidance in destroying false identities the sage s sole concern was with the human suffering and the ending of suffering it was his mission to guide the individual to an understanding of his true nature and the timelessness of being he taught that the mind must recognize and penetrate its own state of being not being this or that here or there then or now but just timeless being a simple man maharaj was a householder and petty storekeeper in bombay where he lived and died in 1981 at the age of 84 he had not been educated formally but came to be respected and loved for his insights into the crux of human pain and for the extraordinary lucidity of his direct disclosure hundreds of diverse seekers traveled the globe and sought him out in his unpretentious home in bombay now mumbai to hear him to all of them he gave hope that beyond the real experience is not the mind but the self the light in which everything appears the awareness in which everything happens in the humble abode of sri nisargadatta maharaj but for the electric lights and the noises of the street traffic one would not know in which period of human history one dwells

**I Am that** 1999 sri nisargadatta maharaj 1897 1981 a revered master of the tantric nath lineage is an inspiring example of an ordinary family man who attained complete realization of the infinite his words carry a rare potency that can jolt the listener or reader into a profound sense of awareness which at the same time signifies true freedom the freedom from all fear and mental suffering in this volume nisargadatta clearly demonstrates that logic and spirituality do not necessarily stand in opposition to one another in a chapter after which this book has been titled nisargadatta relentlessly pursues a logical argument with the visitor to its very end

**I Am that** 2012 sri nisargadatta maharaj met his guru sri siddhameshwar maharaj at the age of 34 in 1933 three years later sri nisargadatta realised himself as the supreme reality the transcendental self through earnestly heeding the words of his guru he discovered he was that which is unmanifest and eternal beyond the bondage of name form shape and size for many years thousands of people came from all over india and the world to listen to sri nisargadatta s teachings his influence is still as powerful today as it was when he gave regular talks four decades ago his legendary plain speaking way and heartfelt commitment to assisting those on the direct path will affect anyone serious about self realisation and the transfiguration of consciousness in this book of key spiritual teachings the great advaita master teaches us that we are suffering because we identify ourselves as a body because of our body identity we feel separate from what we truly are our self identification with the body and mind subjects us to endless cycles of pleasure and pain desire and fear which cause us to search beyond ourselves for that which we believe we lack according to sri nisargadatta all conditions all names and appearances emerge from ignorance and imagination from the mind s assumptions assumptions due to not enquiring and therefore not appreciating the nature of reality when we realise that we are not limited to the body we find that we are already free needing no liberation we discover that we are not only free but infinite and boundless what sri nisargadatta maharaj taught was a dependable and unpretentious means of freedom through understanding to be and to know of one s beingness or consciousness is central to his teaching remembering that we are is our only real capital in the spiritual search this abiding deeply in our existence through nondual meditation to reach the source of the i am we know so well is the heart of nisarga yoga this i am ness is the substance of our entire world all that we know owes its birth to consciousness and it is the portal to the absolute when we are no longer a slave of body consciousness we realise ourselves as universal consciousness pure awareness our preoccupation with the known ceases and we find the natural state nisarga was present all along we are this stateless state and the universe is our creative outpouring

but potent sayings are known for their ability to trigger shifts in consciousness just by hearing or reading them the point is that man freed from his fetters is morality personified such a man therefore does not need any moralistic injunctions in order to live righteously free a man from his bondage and thereafter everything else will take care of itself on the other hand man in his unredeemed state cannot possibly live morally no matter what moral teaching he is given it is an intrinsic impossibility for his very foundation is immorality that is he lives a lie a basic contradiction functioning in all his relationships as the separate entity he believes himself to be whereas in reality no such separation exists his every action therefore does violence to other selves and other creatures which are only manifestations of the unitary consciousness so society had to invent some restraints in order to protect itself from its own worst excesses and thereby maintain some kind of status quo the resulting arbitrary rules which vary with place and time and therefore are purely relative it calls morality and by upholding this man invented idea as the highest good oftentimes sanctioned by religious revelation and scriptures society has provided man with one more excuse to disregard the quest for liberation or relegate it to a fairly low priority in his scheme of things

**Meditations with Sri Nisargadatta Maharaj** 2014-09-01 using philosophy mathematics theology quantum mechanics and personal stories the i of god takes the reader on a journey from being in a relationship with god to being god ourselves in our world the f word is more acceptable than the g word because we have consigned god to the realm of religious propaganda as opposed to the realm of living the i of god removes god from being the old man who sits up in the sky judging us to putting us in the drivers seat this is not a religious spiritual book but a book about how tough it is to realize our potential as humans it requires courage to be ourselves and not go by our beliefs about who we should be the i of god shows how we understand our creative divinity by experiencing our human qualities our conscious ability to daydream have drives tell stories remember our histories and have personal spiritual and cultural views of the world are a reflection of our godliness at the primordial level

**The Ultimate Medicine** 2014-08-01 what is the nature of reality contrary to what almost all human beings presently believe we do not live in a physical universe because as the nature of reality explains physical reality is just an appearance that is being created by our minds and then superimposed by projection upon the non physical reality that is both actually there and what we really are the problem that arises as a result of believing physical reality to be the reality that is actually there is that that mistaken belief causes physical reality to function like a misperceived reflection to continuously obscure one's own reality from their awareness thereby effectively trapping one's awareness in what is nothing more than a mind generated experiential dream that is neither the reality that is actually there nor the reality that one really is the nature of reality was written to provide you with the opportunity to free yourself from that experiential dream and from the suffering being trapped in that dream produces by using fundamental scientific facts to demonstrate that physical reality is not the reality that is actually there where it appears to be so you can rid your mind of the false belief in physical reality that it is inadvertently using to convert physical reality into a delusion that continuously hides from your awareness the non physical reality you really are whether you know it or not your awareness is presently trapping itself in a mind generated experiential dream as a function of what is nothing more than a mistaken belief the question is are you ready to loosen your grip on that belief so you can begin to wake up and become aware of the reality you really are

The Nature of Reality 2016-10-26 this book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous an examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by western epistemologies some of the largest workforces in the world are in the developing world career guidance is rapidly emerging as a strongly felt need in these contexts if more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development this does not mean that existing ideas are to be discarded instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and

practice that has wider relevance the central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues this book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling
