England's Warning-Piece; ... a sermon on Levit. xxiv. 21, 22 occasioned by the untimely death of W. Allen, the younger, who was ... murdered by an arbitrary military power, the 10th May, 1768

1768

a little piece of england tells the tale of how the author s family living in a sliver of countryside in london s commuter belt came over some ten years to make itself in its spare time self sufficient in its requirements of milk meat eggs vegetables and some fruit the book can be read in two ways one way is for those particularly urban folk who are interested in growing their own food or contemplating a life style founded on their own smallholding in this way it is a book for those who wonder about the practicalities of living in a self contained permacultural way and for those who dream of making their own bread or even perhaps of eating their own mutton stewed with their own onions and carrots the other way is for those perhaps particularly anglophiles in other lands who are in harmony with the stubborn saxon streak which runs strongly in the character and culture of the english the streak which showed itself when london was fire bombed night after night in the early 1940s and also when john s self taught grandfather told his children you don t know what you can do until you try to do it

1965

there has been considerable debate in recent years in the anglican church of australia about issues of sexual diversity to this end two collections of essays have been published the first five uneasy pieces addressed the texts that have frequently been used to argue against the legitimacy of homosexual expression within christian life and leadership the book demonstrated clearly that the texts that have been interpreted to slam gay and lesbian people are in fact misused with little or no regard either for ancient context or for contemporary hermeneutics however as all biblical liberationist projects have demonstrated it is not enough to invalidate oppressive uses of selected texts the obligation is to

establish scripture's hospitable inclusion of those who have been subjected to such oppression this is more than a generalized divine invitation to the world it requires a retrieval of those texts that actively embrace gays and lesbians hence a second collection followed pieces of ease and grace this collection broke significant new ground in the way the bible can contribute to contemporary debates the collection utilized a range of methodologies and unlocked authentic significant and original readings that restored the bible to a pastoral and transformative support for those whose self identification was not shaped by heterosexual normativity however the project has raised significant issues for wider theological analysis as well as calling for general theological reflection that can address historical systematic and ecclesial concerns for supportive inclusive recognition of those who identify as and with gay and lesbian people of faith a third volume is therefore prepared focusing theological analysis for the benefit of reflection in the anglican church and beyond given recent developments in ireland and the potential repercussions in australian politics it is clear that the church needs to harness its thinking and its actions in relation to its place within society

1871

the committee criticises the belated recognition of the importance of the growth agenda it welcomes proposals for an investment plan for europe and for a capital markets union yet the responsibility for promoting growth and prosperity lies not only with the commission but with every member state the uk has the largest financial sector in the eu and the implications of these reforms for this country are therefore immense yet the committee finds that the uk's influence over the eu financial services agenda is diminishing it calls on the government and all uk authorities to take urgent steps to correct this the prosperity of the city of london and the financial services industry it hosts is in the interests not only of the uk but of the eu as a whole

climate change radical politics national debt globalization what do christians have to say to the big questions we all face whatever they try to say they will be seriously handicapped if they do not know their own story finding pieces of the puzzle will fill the knowledge gap it breaks away from the usual manner in which history is written here is a sweeping overview of the story of christianity that takes the reader to parts of the world seldom visited that watches as the message of christ encounters cultures as different as ninth century persia and sixteenth century kongo the story is carried from the first to the twenty first century by a series of mini biographies a young woman facing martyrdom a boy from a little french town who becomes pope and launches an army an african american who uses a successful international trade network to combat slavery the glory the confusion the shame the holiness of christianity are all here as the pieces are slipped into place the puzzle begins to make sense watching christians of the past face their challenges helps us understand who modern christians really are

small jurisdictions have become significant players in cross border corporate and financial services their nature legal status and market roles however remain under theorized lacking a sufficiently nuanced framework to describe their functions in cross border finance and the peculiar strengths of those achieving global dominance in the marketplace it remains impossible to evaluate their impacts in a comprehensive manner this book advances a new conceptual framework to refine the analysis and direct it toward more productive inquiries bruner canvasses extant theoretical frameworks used to describe and evaluate the roles of small jurisdictions in cross border finance he then proposes a new concept that better captures the characteristics competitive strategies and market roles of those achieving global dominance in the marketplace the market dominant small jurisdiction mdsj bruner identifies the central features giving rise to such jurisdictions competitive strengths some reflect historical cultural and geographic circumstances while others reflect development strategies pursued in light of those circumstances through this lens he evaluates a range of small jurisdictions that have achieved global dominance in specialized areas of cross border finance including bermuda dubai singapore hong kong switzerland and delaware bruner further tests the mdsj concept s explanatory power through a broader comparative analysis and he concludes that the mdsjs significance will likely continue to grow as will the need for a more effective means of theorizing their roles in cross border finance and the

global dynamics generated by their ascendance
