El Niño Southern Oscillation (ENSO) effects on fisheries and aquaculture

2020-04-01

this fao technical paper synthesizes current knowledge on the impact of el niño southern oscillation enso events on fisheries and aquaculture in the context of a changing climate it describes the diversity of enso events chapter 2 enso forecasting chapter 3 and enso in the context of climate change chapter 4 it includes a global overview and regional assessment of enso impact chapters 5 and 6 and a focus on coral bleaching and damage to reefs and related fisheries chapter 7 finally it synthesizes the lessons learned and the perspectives for enso and preparedness in a warmer ocean chapter 10

Himalayan Weather and Climate and their Impact on the Environment

2019-11-08

this book proposes a unique and comprehensive integrated synthesis of the current understanding of the science of himalayan dynamics and its manifestations on physical systems and ecosystems at different spatial and temporal scales in particular this work covers relevant aspects of weather and climate paleoclimate snow glacier and hydrology ecology forestry among other topics associated with the himalayas it highlights the role of the himalayas in defining local to regional to global scale impact on weather and climate it includes himalayan impact on defining physical basis of changing glacier systems permafrost melting thawing climate variability and hydrological balances as a result this volume represents an important synthesized overview both for environmental and earth science researchers and for policy makers and stakeholders interested in the physical and dynamical processes associated with the himalayan massif

Beyond El Niño

2012-12-06

the interest and level of research into climate variability has risen dramatically in recent years and major breakthroughs have been achieved in the understanding and modelling of seasonal to interannual climate variability and prediction at the same time the documentation of longer term variability and its underlying mechanisms have progressed considerably within the european commission s environment and climate research programs several important projects have been supported in these areas including the decadal and interdecadal climate variability experiment dice which forms the basis of this book within the ec supported climate research we see an increasing importance of research into climate variability as is evidenced in the upcoming fifth framework programme s key action on global change climate and biodiversity this is because of the obvious potential socio economic benefits from seasonal to decadal scale climate prediction and equally important for the fundamental understanding of the climate system to help improve the quality and reliability of future climate change and mankind s current interference with it the dice group has performed important and pioneering work and we hope this book will receive the wide distribution and recognition it deserves we welcome the contributions from distinguished researchers from us japan and canada to the ec s dice group towards completing the scope of the book and as an example of international cooperation which is essential in such a high level scientific endeavor

1892

mariners weather log contains articles news and information about marine weather events and phenomenon storms at sea weather forecasting the nws voluntary observing ship vos program port meteorological officers pmos cooperating ships officers and their vessels it provides meteorological information to the maritime community and contains a comprehensive chronicle on marine weather it recognizes ships officers for their efforts as voluntary weather observers and allows nws to maintain contact with and communicate with over 10 000 shipboard observers ships officers in the merchant marine noaa corps coast guard navy etc

Mariners Weather Log

1997

drawing primarily on selected filmic texts from former yugoslavia the book examines key social and political events that triggered the yugoslav wars in the 1990s yugoslav politics and society are set within the broader artistic and cinematic strategies that helped stabilise post yugoslav territories strategies that were part of the national desire of looking forward to a time of perpetual peace and its subsequent cosmopolitan norms it argues that filmic texts demonstrate the degree to which nationalism was at the heart of the violent disintegration of yugoslavia yet the concern of the argument is not simply to offer a filmic critique but to develop an alternative to nationalism namely a theoretical framework through which cosmopolitan humanism is at the forefront of addressing former yugoslavia s political wounds

Post-Yugoslav Cinema

2015-09-15

first published in 1937 ali and nino has been hailed as one of the most romantic epic novels of all time against a gloriously exotic backdrop a doomed but enduring love between childhood friends divided by their separate cultures is portrayed

A Roman Singer

1884

the gang life laugh now cry later examines the criminal gangster mindset and offers gang prevention strategies using real world examples to demonstrate a

holistic approach toward combatting this surging societal problem the text outlines the evolution of gang membership from a state of interest to association to hardcore original gangster status and explores the evolution of law enforcement's multi pronged approach to combating criminal street gang violence from the catch and release mentality of the 1970s and 1980s to today's collaboration with private organizations such as boys girls clubs in depth profiles case studies and lengthy histories of gangs gang members and their transformations are provided to demonstrate the deleterious effect of gangs on society designed for criminal justice students and for practitioners in the field this text offers readers a holistic approach toward gang prevention from three nationally awarded educators and gang investigators

data science applied to sustainability analysis focuses on the methodological considerations associated with applying this tool in analysis techniques such as lifecycle assessment and materials flow analysis as sustainability analysts need examples of applications of big data techniques that are defensible and practical in sustainability analyses and that yield actionable results that can inform policy development corporate supply chain management strategy or non governmental organization positions this book helps answer underlying questions in addition it addresses the need of data science experts looking for routes to apply their skills and knowledge to domain areas presents data sources that are available for application in sustainability analyses such as market information environmental monitoring data social media data and satellite imagery includes considerations sustainability analysts must evaluate when applying big data features case studies illustrating the application of data science in sustainability analyses

Ali and Nino

2009

this book presents a contrastive analysis of various forms of address used in english and italian from the perspective of cultural semantics the branch of linguistics which investigates the relationship between meaning and culture in discourse the objects of the analysis are the interactional meanings expressed by different forms of address in these two languages which are compared adopting the methodology of the natural semantic metalanguage the forms analyzed include greetings titles and opening and closing salutations used in letters and e mails in the two languages noticeably the book presents the first complete categorization of italian titles used as forms of address ever made on the basis of precise semantic criteria the analysis also investigates the different cultural values and assumptions underlying address practices in english and italian and emphasizes the risks of miscommunication caused by different address practices in intercultural interactions every chapter presents numerous examples taken from language corpora contemporary english and italian literature and personal e mails and letters the book encourages a new innovative approach to the analysis of forms of

address it proposes a new analytical method for the analysis of forms of address which can be applied to the study of other languages systematically in addition the book emphasizes the role of culture in address practices and takes meaning as the basis for understanding the differences in use across languages and the difficulties in translating forms of address of different languages combining semantics ethnopragmatics intercultural communication and translation theory this book is aimed at a very broad readership which includes not only scholars in linguistics second language learners and students of cross cultural communication but virtually anyone interested in italian and english linguistics as well as in cultural semantics the approach taken is interdisciplinary and brings together various fields in the social sciences linguistics anthropology cross cultural studies and sociology
