The Poetry of Flowers and Flowers of Poetry 1846 an exquisitely photographed volume of cutting edge floral decorator and belgian flower shop owner daniël ost s innovative floral and leaf branch twig sculptures he brings the reader into a totally new realm of viewing plants and flowers as art and architecture daniël ost is one of the european plant flower artists and designers who have made such an impact as art as live material you have to see these photographs and carefully read the inspiring text to understand why you will never again be able to look at plants or flowers the same way ultimately daniël ost explains that though flowers and plants must be cut or separated from life the beauty and architectural integrity of these guide lines for the

the hands of a contemporary master can work a miracle of design and transcend everything we know about traditional floral arranging

Drops from Flora's Cup 1846 branch out from the usual garden variety flowers with these rare wonders more than 100 royalty free images include palms cacti and other specimens from diverse regions each a celebration of mother nature s creativity

Flora's Lexicon 1854 in this first substantial study of emily dickinson s devotion to flowers and gardening judith farr seeks to join both poet and gardener in one creative personality she casts new light on dickinson s temperament her aesthetic sensibility and her vision of the relationship between art and nature revealing that the successful gardener s intimate understanding of horticulture helped shape the poet s choice of metaphors for every experience love and hate wickedness and virtue death and immortality gardening farr demonstrates was dickinson s other vocation more public than the making of poems but analogous and closely related to it over a third of dickinson s poems and nearly half of her letters allude with passionate intensity to her favorite wildflowers to traditional blooms like the daisy or gentian and to the exotic gardenias and jasmines of her conservatory each flower was assigned specific connotations by the nineteenth century floral dictionaries she knew thus dickinson s association of various flowers with friends family and lovers like the tropes and scenarios presented in her poems establishes her participation in the literary and painterly culture of her day a chapter gardening with emily dickinson by louise carter cites family letters and proceeds to conjecture the kinds of flowers contained in the plants for the

and outdoor gardens carter hypothesizes dickinson s methods of gardening explaining how one might grow her flowers today beautifully illustrated and written with verve the gardens of emily dickinson will provide pleasure and insight to a wide audience of scholars admirers of dickinson s poetry and garden lovers everywhere table of contents introduction 1 gardening in eden 2 the woodland garden 3 the enclosed garden 4 the garden in the brain 5 gardening with emily dickinson louise carter epilogue the gardener in her seasons appendix flowers and plants grown by emily dickinson abbreviations notes acknowledgments index of poems cited index reviews of this book in this first major study of our beloved poet dickinson s devotion to gardening farr shows us that like poetry gardening was her daily passion her spiritual sustenance and her literary inspiration rather than speaking generally about dickinson s gardening habits as other articles on the subject have done farr immerses the reader in a stimulating and detailed discussion of the flowers dickinson grew collected and eulogized the result is an intimate study of dickinson that invites readers to imagine the floral landscapes that she saw both in and out of doors and to re create those landscapes by growing the same flowers the final chapter is chock full of practical gardening tips maria kochis library journal reviews of this book this is a beautiful book on heavy white paper with rich reproductions of emily dickinson s favorite flowers including sheets from the herbarium she kept as a young girl but which came first the flowers or the poems so intertwined are dickinson s verses with her life in flowers that they seem to be the lens through which she saw the world in her day 1830-86 many people spoke the language of flowers and this for

shows how closely the poet linked certain flowers with her few and beloved friends jasmine with editor samuel bowles crown imperial with susan gilbert heliotrope with judge otis lord and day lilies with her image of herself the belle of amherst mass spent most of her life on 14 acres behind her father s house on main street her gardens were full of scented flowers and blossoming trees she sent notes with nosegays and bouquets to neighbors instead of appearing in the flesh flowers were her messengers resisting digressions into the world of dickinson scholarship farr stays true to her purpose even offering a guide to the flowers the poet grew and how to replicate her gardens susan salter reynolds los angeles times cuttings from the book the pansy like the anemone was a favorite of emily dickinson because it came up early announcing the longed for spring and as a type of bravery could withstand cold and even an april snow flurry or two in her amherst garden in her poem the pansy announces itself boldly telling her it has been resoluter than the coward bumble bee that loiters by a warm hearth waiting for may she spoke of the written word as a flower telling emily fowler ford for example thank you for writing me one precious little forget me not to bloom along my way she often spoke of a flower when she meant herself you failed to keep your appointment with the apple blossoms she reproached her friend maria whitney in june 1883 meaning that maria had not visited her sometimes she marked the day or season by alluding to flowers that had or had not bloomed i said i should send some flowers this week but my vale lily asked me to wait for her people were also associated with flowers thus her loyal brisk homemaking sister lavinia is mentioned in dickinson s letters in concert with sweet apple blossoms

once upon a time some flowers in your house were considered to be a part and parcel of your daily life and necessities instead of being social niceties and possibly luxuries in houses of taste and refinement even the most poverty stricken house would have some greenery and flowers somewhere if the house owner had a sense of aesthetic beauty and did not want to be deemed equal to the beasts of the field every single class in society would use flowers in some form or the other for either personal or domestic adornment down the ages and that is one tradition which has played an important role in the social and cultural background of civilizations and cultures all over the world up till now the rich and aristocrats could afford the choicest and rarest exotic blooms and blossoms with which to adorn their houses while the lower classes made do with the common flowers in the fields and never thought themselves deprived that is one of the bounties of nature for which we are thoroughly grateful i have written a number of books on flower drying skeleton leaves and other associated books where you can get plenty of information on how you can create things of beauty from the leaves and the plants that you have dried after collecting them from the fields or gardens around you
