British Army on the Rampage (B.A.O.R.)

2014-02-03

It's the autobiographical novels that tell it how it was warts and all this is what the British Army really got up to in Belize. British Army on the Rampage is a down-to-earth, witty account of a humble British soldier on his tour of duty in the Caribbean country of Belize in 1982. It is the first military account of this operational tour, detailing how the task was carried out by an individual and a team of lunatics under difficult and sometimes stressful conditions. It takes more than training, education, teamwork, and leadership to make it through a squaddie's working day. B.A.O.R. proves that sometimes it is only with sheer determination, camaraderie, and a sense of belonging to the military family that pulls soldiers through the difficult times they often face. The book is filled with humorous anecdotes, including the accidental destruction of the warden's new hut with a grenade launcher, the export of frozen tarantulas, windsurfing with bull sharks biting the heads off chickens, insulting the memory of Bob Marley, causing a riot, breaking a toe on a frog, and the near-death experience of a dislocated finger. Along with the author's account of this operation, B.A.O.R. also includes an analysis of the balance between patriotism, professionalism, and sheer lunacy. Humorous and honest, it will appeal to serving ex-services and veteran armed forces personnel and those who enjoy military history and are interested in the British Army.

british summer time begins is about summer holidays of the mid twentieth century and how they were spent as recounted to ysenda maxtone graham in vividly remembered detail by people who were there through this prism it paints a revealing portrait of twentieth century britain in summertime how we were how families functioned what houses and gardens and streets were like what journeys were like and what people did all day in their free time it

explores their expectations hopes fears and habits the rules or lack of rules under which they lived their happiness and sadness their sense of being treasured or neglected all within living memory from pre war summers to the late 1970s ysenda takes us back to the long stretch of time from the last days of june till the early days of september those months when the term time self was cast off and you could become the person you really were and you had if you were lucky enough hours in the endless succession of days to become good at the things that would later define your adulthood the showpiece part of the summer holidays was the summer holiday when families took off to the seaside or to grandparents houses teeming with cousins or on early package holidays to france or spain siblings wedged into the back of small cars roof racks clattering mothers preparing picnics british summer time begins is as much about the long weeks either side of that holiday as the trip itself the weeks when nothing much officially happened boredom often lurked nearby and you vanished for hours on end nobody much knowing or even caring where you were could it be that those unscheduled days were actually the most important and formative of your life from the author of the beloved terms conditions british summer time begins is a delightful nostalgic and joyous celebration of summers

this study investigates the figure of haunting in the new nature writing it begins with a historical survey of nature writing and traces how it came to represent an ideal of natural space as empty of human history and social conflict building on a theoretical framework which combines insights from ecocriticism and spatial theory the author explores the spatial dimensions of haunting and hauntology and shows how 21st century writers draw on a gothic repertoire of seemingly supernatural occurrences and spectral imagery to portray natural space as disturbed uncanny and socially contested iain sinclair and robert macfarlane are

revealed to apply psychogeography's interest in hidden histories and haunted places to spaces associated with wilderness and the countryside kathleen jamie's allusions to the gothic are put in relation to her feminist re-writing of the outdoors and john burnside's use of haunting is shown to dismantle fictions of the far north this book provides not only a discussion of a wide range of factual and fictional narratives of the present but also an analysis of the intertextual dialogue with the romantic tradition which enfolds in these texts
